The Editor's column

by STUART R. PADDOCK

We thought old time family gardens were out of style. Too many women of today think it is easier to patronize a freezer.

"Not so," said Mrs. J. F. Schipper, 1007 N. Kaspar, Arlington Heights, when she brought to this office a bag of giant tomatoes from this year's crop. One of them weighed 2¼ lb. When we asked her how it happens that she is cultivating a garden in these modern times, she replied, "I have an old-fashioned family. My 2 sons and husband prefer home-raised and home-cooked vegetables. I enjoy giving it to them."

Mr. and Mrs. Schipper started their gardens during World War II when the results were at times disappointing. Mr. Schipper is now getting bumper crops by using modern methods.

Attorney Herbert Freise of Walla Walla, Washington, son of Louis Freise of Palatine, and great-grandson of the late William Freise, founder of the Freise clan in Schaumburg 110 years ago, is a chip off the old block, politically.

As a young Republican, he entered the Republican primaries as a candidate for the Washington Legislature. He defeated 2 old-timers and according to the Walla Walla Bulletin, will have an excellent chance of being elected in November.

The Freise family has been voting the Republican column a hundred years. Herbert is now carrying Palatine and Schaumburg brand of Republicanism into his adopted state.

•

The internal revenue department states it is collecting more gambling taxes in northern Illinois than any time since 1951.

The churches of northern Illinois report big increase in membership. We hope the churches win. They need the money for larger places of worship.

•

The residents of the northwest Cook county townships have only until November 6 to decide if they desire to become a part of the Metropolitan Sanitary District.

We can foresee that from an immediate dollars and cents standpoint, the voters of those 2 municipalities will be advised by their respective village boards to vote "no." That decision might be wrong.

Should Arlington Heights and Palatine continue to invest in future sewage treatment plant expansions, or would it be more economical regardless of existing bond issues to pass that burden on to a sanitary district right now.

If not, within 10 years it will be necessary for the 2 municipalities to issue additional bond issues. We cannot stop the home development around us. Residents of the new areas will demand sanitary facilities. Sooner or later we could expect the state legislature to force the metropolitan sanitary district upon us.

In all probability, when that time comes, the outstanding municipal sewage bond issues will be larger than they are today.

The village engineers have had their say. We would like to have an advisory committee of hard-headed businessmen give an opinion as to which would be the better investment.

•

Adequate water supply is, however, of greater importance than immediate expansion of sewage treatment facilities.

While municipalities along the Wisconsin division of the North Western have been marking time on a project to secure water from Lake Michigan, the municipalities of Elmhurst, Villa Park and Lombard have formed a water commission which plans to construct a water crib in Lake Michigan adjacent to Highland Park and pipe the water along Route 83 to DuPage county.

We believe the engineers who say that within 5 years we will be unable to secure a sufficient amount of water from deep wells. It has been the nature of our municipalities for too long a time to put off until tomorrow what needs to be done today.

Are we to get in on the ground floor or will we just be a profit-producing customer of DuPage county commission?

We pay big money for a master municipal plan. Let us spend some money, apart from engineer's commissions, for sound business advice.

•

When we learned recently that Uncle Sam has asked for an option for a new post office site, we envisioned a fine government built post office building. We were so certain that our hunch was right that we entered into a dinner wager with Virginia Dodge, Arlington Heights postmaster, that Uncle Sam was going to do just that.

Imagine our disappointment when, after a series of phone calls, we learned that while the post office department recognized the future postal needs of Arlington and Rolling Meadows, he was still only interested in a lease proposition.

Perhaps his thought is to utilize the rent money as a reduction on his income tax or is it collecting an income tax from the man who puts up the building?

•

Risking the wrath of some women, we are passing on the comments of a male motorist who asks us to wage a safety campaign against the women drivers who are so intent on finding a parking spot on Saturdays, they break all safety rules.

"Some day," said the autoist, "there will be a pedestrian who will not be able to get out of their way."

MEMBERS OF THE LEAGUE of Women Voters assisted village clerk Carl Weinrich with voter registrations Friday night in the village hall. There were 100 registrations that evening with 230 on Saturday. Local registrations will be accepted next on October 9 at all polling places, but voters may register before then at the county building in Chicago. —Staff photo

Northwest Hospital Plans Now Complete

State, Federal Groups Give Top Priority To Effort

Plans are being completed this week for building the Northwest Community hospital, Charles J. Walters, chairman of the board of trustees and Nicholas Lattof, general campaign chairman, declared Wednesday in a joint statement.

Walters announced that a conference was held Saturday with architects, under direction of Donald D. Florence, head of the hospital building committee, and complete blueprints and cost figures would be submitted for consideration of the trustees within a month.

* * *

PRACTICALLY all preliminary work, connected with securing funds to complete the project, has been done, Walters stated.

He pointed out that the need of area hospital facilities is so urgent that the federal and state public health departments have given the project top priority, and will participate to the extent of one-third of the total cost of constructing and equipping the hospital.

Plans call for a 100-bed hospital, equipped for research as well as general services, he explained.

"Gifts of more than $100,000 have already been received," Lattof said, "and no concerted drive has been made for widespread support. The hospital is being built to serve the entire area, including the communities of Mt. Prospect, Des Plaines, Barrington, Palatine, Prospect Heights, Rolling Meadows, Wheeling and Arlington Heights.

"Rapid and continuous growth of these closely related communities calls for immediate action on the project for providing their citizens with hospital services. The present lack of hospital facilities within this prosperous area constitutes a real danger. The necessity of relying in time of sickness and accident on the few and overcrowded hospitals in the adjacent areas is a matter of concern to every resident, worker, and employer in this nationwise progressive section.

* * *

"WITH ALL preliminaries completed, the time has come to finish the job. The campaign development committee has decided on an all-out effort to raise the needed funds by the middle of November. To achieve the goal of $750,000 the united force and efforts of the 120,000 people living in these communities is needed. The campaign cannot be delayed. The need is urgent and immediate."

Lattof said that more than 100 men and women had volunteered to help in the fund-raising program, and that the canvass would include big industries, business firms and residences.

Elk Grove's New Village Is Planning Model Community

Elk Grove village is now a reality.

Its organization was completed Friday when newly elected officers took their oaths of office before the county clerk and the first session of the village board was held in the Elk Grove town hall, temporary seat of village government.

Following the organization meeting, a buffet supper and a reception for the new village officers and all of those who had a part in its organization was held at the Mount Prospect country club.

* * *

FIRST OFFICIAL act of the new village board was the drawing of lots to determine the term of office of the 6 elected trustees.

The terms of Charles A. Hodlmair, clerk Margaret C. Petrie and police magistrate William N. Glab will expire next spring. The 3 trustees whose terms also expire at that time are Morgan P. Burke Jr., James L. Carroll and Leonard A. Scharringhausen.

Other trustees who will hold office until 1959 are Frank R. Angelotti, Laurence F. Grindel and Roger J. Patzer.

The board appointed Frank Opeka as village clerk and D. B. McCabe and Associates as engineers.

* * *

THE ORIGIN, of what the developers say will be a model village, is interesting. Included within its confines are farms that have not changed hands for a hundred years. One such deed of the Tonne family was dated 1848 and there were others nearly as old.

Charles Holdmair, who is the first president of the new village, has had a big part in the purchase of the farms doing the leg work necessary to consolidate the interests of all residents within the 750 acres included in the village. Harry Salcott represented the buyers in the negotiations for purchase.

The village substantially extends from Arlington Heights to Tonne roads. Higgins road is the north boundary. The idea behind the location of the village and its development was a desire of the developers to construct a model village apart from possible interference of the county or neighboring municipalities. It was important that they handle their own zoning, provisions for building and requirements for underground services.

* * *

PLANS FOR village development required that they be strictly on their own. Their plans include the construction of improved streets before erection of homes; all utilities at the rear of lots or underground; 60 feet as a minimum lot size.

Plans call for wells until the proposed Lake Michigan water project becomes a reality. A sewage treatment plant will be constructed, emptying into Salt Creek.

They admit their responsibility to the school system and plan for the erection of their own school buildings, which will be turned over to the school district to operate.

Attorney Frank Opeka, Des Plaines, handled the legal matters necessary for organization and will continue as village attorney. An outstanding architect is designing homes of distinctive character.

The entire property has been acquired in the name of a trust.

Plans call for the erection of 5,000 to 6,000 homes with a shopping center.

County Schedules Two Zone Hearings

Cook County zoning board of appeals has called public hearings at Arlington Heights and Palatine for Oct. 4.

The Arlington session starting at 7 p. m. involves a petition of Waldo E. Tinsley to rezone 2 acres on northside of Palatine road, east of Wilke.

* * *

THE PALATINE hearings will start at 8:15 p. m. and include request for rezoning of 2 parcels from farming to business (B-1).

The parcels are located at southeast corner of Kirchhoff road and Plum Grove for which Jackson Boughner is attorney; and at southwest corner of Dundee and Hicks road with Robert Haskin as attorney.

Scouts who help enlist a new boy in scouting will receive a special "Onward for God and Country" neckerchief slide.

The general public is welcome to attend the Scout-O-Ree and see what the boys in this area have accomlished.

Six Suburbs To Discuss Water Plight

Six municipalities are expected to send representatives to a conference at Palatine Thursday evening regarding the proposed Lake Michigan water project.

The municipalities of Elmhurst, Villa Park and Lombard have formed a water commission which intends to pipe Lake Michigan water to residents within 2 to 4 years.

* * *

PRELIMINARY engineering studies are being made for the project expected to cost nearly 10 million dollars.

Purpose of the Palatine meeting is to decide to what extent joint action is advisable, or desired by the municipalities of Park Ridge, Des Plaines, Mt. Prospect, Arlington Heights, Palatine and Barrington.

Fifty pupils of Arlington Heights junior high school student council will be guests of Kiwanis club Saturday for a tour of O'Hare air force base.

The trip will include interviews with pilots, demonstration of fire fighting equipment, and a view of jet planes in action.

Hurt In Wreck

A 37-year-old Chicago woman was injured last week in an accident on Kensington rd. near Beverly lane.

She is Mildred Engmann, 7639 W. Clarance, who suffered nose, neck, and back injuries when the car in which she was riding was struck from the rear by John J. Johnson, 18, of 940 N. Ridge, Arlington Heights. Driver of the other car was Edward R. Engmann, 42.

Highway Crossing, Post Office On Board Agenda

Arlington Heights village board Tuesday night cleared the way for the hoped-for expansion or construction of a new post office by re-zoning 2 lots on Wing st.

On the first roll call 3 trustees—John Hoover, Forrest Davis and Robert Bishop—voted against the ordinance which the zoning board of appeals recommended to re-zone the lots from residential to commercial.

Davis explained that his and Hoover's vote was "just in jest" (with Bishop) and they changed it to yes. Bishop, however, did not alter his negative vote. He suggested that the board take more positive action to get a new post office.

* * *

THE LOTS are located in the rear of the present post office. Re-zoning is specifically for extension of the present building or a new one.

Efforts to get a commitment from the federal government concerning its plans for better postal facilities were described as futlie.

Village Manager F. R. Buechner will investigate the possibility of providing a safer way for students from the south side of the village going to and from the high school.

Mrs. L. K. Smith, acting as spokesman for the dozen residents of that area, told the board that at present some of the students are crossing the highway at unprotected corners as well as the railroad tracks. She asked about the possibility of extending Salem st. to a point near Euclid which Buechner will investigate.

* * *

A 3-MEMBER committee, including Trustees Bishop and Frederick Weber and Attorney Hugo Thal, were authorized to negogiate with the North Western railroad for a right of way to permit widening and extension of Davis st.

Construction of a system to interconnect traffic lights and railroad crossing gates will get under way soon. Board awarded a contract to the L & S Construction co. of Chicago on its low bid of $28,577.64. The only other bid, which was $2,000 higher, was submitted by an Evanston firm.

Board also voted to request the county or state highway department to install 4-way stop signs or a traffic light at the intersection of Wilke rd. and Northwest hwy. Rolling Meadows will be asked to make the same request.

Village Manager Ordinance Read At Board Session

Arlington Heights this week took another step toward a village manager government with the presentation of the long-awaited ordinance, establishing the office, to the board of trustees.

Board's judiciary committee will study the proposed ordinance and possibly present it for adoption at the next meeting.

Trustees Forrest Davis and James Millay urged quick action.

Walter P. Dahl, an attorney and chairman of the 9-member citizens committee, which drafted the legislation, officially presented it at the Tuesday night session.

Arlington Heights voters late in 1955 approved a village manager form of government.

Under the proposed ordinance, the manager will act as the village's "chief administrative officer" will "enforce all laws . . . appoint, suspend or remove all appointive officers and employees of the village, including the chief of police and chief of the fire department except members of boards or commissions . . ."

Also "exercise control of all departments and divisions . . . investigate all complaints in relation to matters concerning the administration of the government of the village . . . purchase all materials, supplies and equipment for which funds are provided in the budget . . . for a purchase of more than $500 he shall be required to receive sealed bids" for board approval.

The ordinance also specifies a full-time manager and a resident of the village during his term of office. His salary will be set by the board. No limits were included in the ordinance.

A MAJORITY board vote will be needed to hire or fire the manager under the proposed ordinance.

F. R. Buechner is the present village manager. The position was created 2 years ago by ordinance and the proposed changeover will bring it under the Illinois statutes which give the job greater responsibilities.

Dahl told the board that the committee spent considerable time studying the existing village code to determine what sections must be changed to conform with the manager ordinance. This, however, developed into an extensive task and in July Village Attorney Hugo Thal notified the committee to discontinue their efforts to change the code.

* * *

ALONG WITH the board's adoption of the ordinance, revision of the village code might be described as the next 2 important steps in the plan.

The ordinance committee noted in its report that chapter 24, article 20, section 20-9 of the statutes provide for the following:

Amplify the powers and duties of the manager;

Define the scope of each village department and division;

Define and prescribe the powers and duties of appointive officers and employees;

Fix the salaries of all appointive officers and employees;

Provide for independent audit of all accounts of the village.

* * *

THE CITIZENS' committee was appointed early this year.

Other members were: George S. Hoban, David C. Kenyon, Harold W. Klinger, Alan S. Jeffrey, E. J. O'Brien, M. E. Verbeck, Stephen Jurco and Paul E. Collins.

Here's Inside Dope On Post Office Problem

In order to be "first with the firstest," Paddock Publications spent an hour Monday in an effort to get a commitment from "big brass" of the post office department regarding its intentions to give Arlington Heights a government-built post office building.

The "big brass" was sympathetic, but made it plain that the department is not erecting such buildings.

WHEN THE EDITOR inquired if it would be amiss if a bit of political sleuthing was injected into the picture, he was politely told "No."

"Our plans are all made; we know what we are going to do."

The regional real estate department is still looking for an adequate site and, if necessary, is willing to take title to such a site. But it will not erect the building on its own.

THE DEPARTMENT hopes that an independent contractor will offer his services on a lease basis. If such a person is not found, Uncle Sam may endeavor to find interests who will erect the building that Arlington Heights and Rolling Meadows need so desperately.

Good Neighbors?

Arlington Heights—city of good neighbors?

Last Thursday night an auto drove up and down W. Hawthorne st., tossing stones at passersby. Two pedestrians complained to police.

MUENCH ALSO announced recipients of last year's funds which totaled $575.

Northwest Suburban YMCA received $150, girl scouts $25, boy scouts $25, little league $125, gifts for yanks $25, patrol boys $25, boys state $50, and annual scholarship $150.

Tourists Blench At High Prices Rampart In Poland

by BILL DILLINGHAM

American cigarettes in Poland cost 10 dollars a pack.

With haggling, perhaps a carton can be had for 90 dollars. A gallon of gasoline costs $4.50, and a bar of soap a mere 2 dollars.

This is the economic scene today in Poland in relation to the U. S. dollar.

* * *

ONE AMERICAN dollar is exchangeable in the Polish National bank for 4 zlotys. On the street, it is possible to get 100 or even 120 zlotys per dollar.

Under these conditions, travelers quite naturally take their money to the bank.

The huge difference of opinion about the value of the U. S. dollar arises from the fact that Poland is in the "ruble area," and Moscow does not credit our money as being worth very much.

Polish workers are earning about 1200 zlotys per month in unskilled labor.

A medium-sized room with heat costs 150 zlotys per month, shoes are about 300 a pair and a radio or suit of clothes for a man 2000 zlotys.

Food, on the other hand, is relatively cheap.

This leaves the average Pole looking very poorly dressed, but by no means underfed.

* * *

THIS REPORTER traveled over 1200 miles in Poland, visiting all of the main cities and hundreds of villages.

The roads were usually in excellent condition, although very few cars were in use.

Trucks were the main vehicle being used, carrying groups of people to and from work.

On Sundays, trucks transported people for their holiday activities.

With the exception of Warsaw, throughout Poland almost no traffic lights were encountered.

Everywhere, people were keenly interested to know how their economy compared to those of other countries. They constantly asked prices of clothing, mechanical items and food.

* * *

THE PRICES of clothing in Poland are so high in relation to wages that most of the people, even when dressed in their Sunday best, have to resort to elaborate patching up. It is not uncommon to see a man's shirt collar made of oilcloth. It can be wiped clean with a damp cloth and permits the shirt to escape the wear of frequent washing. (But tends to itch when collar cracks.)

The few Americans that manage to get visas to Poland find it one of the most expensive countries in the world.

Travel agencies in Paris, Rome and Scandinavia confidentially inform travelers that women's nylon stockings sell for 25 dollars a pair in Poland, and that it is perfectly legal to import and sell them there. This fact alone removes the economic sting to foreigners.

* * *

IN ALL of Poland's main cities there are State stores that buy from the public.

This saves the visitor the indignity of lurking in the shadows, signaling people with a "psssst," and permitting bare glimpses of the nylons from the inside coat pocket. (B10

frequently for broken insulators, and loose or sagging wires that may touch trees or other obstructions.

Inside buildings, watch for defective outlets or switches, loose connections at junctions, damaged insulation or worn fixtures. Appliance cords need frequent attention. When they are defective, discard or repair them immediately.

When a fuse "blows," something is wrong — too much load on the circuit or a short circuit somewhere. Locate and remove the source of the overload or short before putting in a new fuse. Be sure to use the proper size of fuse.

NROTC Exams Set December 8

VAdm. James A. Holloway, Jr., chief of Naval personnel, announced today that the 11th annual competitive examinations for the Navy's reserve officer training corps will be given to interested high school seniors December 8.

Application forms are now available and must be received before November 17, he added.

* * *

DESIGNED to supplement the officer output of the Naval academy, the NROTC program makes it possible for a young man to earn a commission while studying at the civilian college of his choice which has an NROTC unit.

All tuition, fees and books are furnished by the Navy, and the student receives an annual retainer of $600 for 4 years.

During the summers, the student goes on training cruises as a midshipman. After completing the usual 4 year college course, he is commissioned in the Regular Navy or Marine Corps and goes on active duty with the Navy's far-flung fleets. For those who apply and qualify, immediate assignment to flight training will open new careers in naval aviation.

* * *

HIGH SCHOOL seniors and graduates between the ages of 17 and 21 may apply for the NROTC aptitude test.

Those who make a qualifying score will be given a rigid physical exam early in 1957. From the pool of qualified young men remaining in competition, approximately 2,000 will be selected to begin their naval careers next September.

The NROTC college training program is also open to enlisted men on active duty with the Navy and Marines. Separate quotas are established for applicants from within these services.

Application forms are available at all high schools, colleges, Navy Recruiting stations or from the Chief of Naval Personnel, Washington 25, D.C. (WUS

Electricity Can Be Quick Killer: Expert

Electricity can be a quick killer in an off-guard moment.

The ordinary 115-volt lighting circuit can be as deadly as high voltage lines, says O. L. Hogsett, extension safety specialist at the University of Illinois college of agriculture. When poorly done, a new extension or repair job can make a safe wiring system hazardous.

PEOPLE WISE MARTINIZE

Say, here are some items that I'll bet you guys and dolls haven't given a thought. You dolls usually have some scarfs that you use a lot during the winter months, and I'll bet that they could stand a good cleaning. I know you guys have a lot of ties that are spotted — gravy stains, etc. — that you have forgotten about, so why not check those departments before the winter season is upon you.

The beautiful part about this MARTINIZING Cleaning Process, is that it handles any kind of cleaning with the same thoroughness. No matter how flimsy or fragile the material, or how heavy and rough other materials are, you'll find they'll both come back sparkling and fresh when you have them cleaned at Dunton Court Cleaners.

Now is the time to get those winter clothes out and see if they are in good shape. You'll have lots of time to check them—then send them down to be MARTINIZED—and you'll find they stay cleaner longer, and will be cleaned better. Give us a chance to prove that all we say is not just idle boasts.

With the PTA

Junior High Greets Parents

Donald V Grote, principal of the Junior high school, will introduce the faculty to the parents of the sixth, seventh and eighth grade students at the opening meeting of the PTA year. It will be held at 8:15 p.m. Tuesday, Sept. 25 in the school gymnasium. Mr. Grote will review the curriculum and special activities planned for the coming year.

Room Mothers' Teas

Room mothers, unsung heroines of the PTA, will be honored at tea at the Junior high as well as the 4 K-5 schools next week. At the Ridge school Mrs. Lester Ploetz, school chairman, will be hostess at the tea September 26, while Mrs. Jack Keller, North school chairman will greet her group of room mothers the same evening. September 24 Mrs. James Kuykendall, South school chariman, and Mrs. Charles Oestmann, chairman of the Dryden school will each entertain room mothers of their respective schools. September 27 is the date chosen by Mrs. Kenneth Hood, chairman of the Junior high school, for the tea for the room mothers of the older children.

The teachers will introduce their room mothers and the school chairman will review the responsibility the room mother assumes.

The room mother plays an important part in the PTA. She supplies the link between the association and the parents of the children in her room in carrying out PTA projects and promoting closer cooperation between parents, school and community. Her duties range from acting as hostess on Parents' night in October to helping teacher on field trips; selling tickets to PTA affairs, to helping with refreshments for the social hour after one of the monthly meetings.

Membership Memos

The party line has been buzzing with the busy signal this week as the membership committee drew final plans for the membership drive scheduled for October 1-5. Anyone listening in would have picked up some interesting tid-bits.

Arlington Heights PTA has a record to beat. Evaluation of last year's activities by the Illinois Congress of Parents and Teachers won the group a rating of excellent on all counts. Not only did the group have the largest membership of any elementary schools in the state, but 89 per cent of the families represented in school were on PTA membership rolls. Statewide, the average was 69 per cent.

In briefing her committe, Mrs. John Lindstrom, second vice president and membership chairman, emphasized that the PTA program should be embraced by any adult with a sense of community responsibility. Stated objects of the association as expressed in the national by-laws are: to promote the welfare of children and youth in home, school, church, and community. To raise the standards of home life. To secure adequate laws for the care and protection of children and youth. To bring into closer relation the home and the school, that parents and teachers may cooperate intelligently in the training of the child. To develop between educators and the general public such united efforts as will secure for every child the highest advantages in physical, mental, social, and spiritual education.

Class room membership drive prizes will be expanded this year with cash awards going to all home rooms attaining 95 per cent membership or better. Those rooms which enroll 100 per cent of the parents will receive a grand awar

Sabrina Fair

PTA is sponsoring the Village Theater production of "Sabrina Fair" October 19 and 20. Mrs. Howard Wittenburg, ticket chairman, announced that ticket sales will be handled through the room mothers.

Last Call For Round Robin

Mrs. J. Kemp Blackwell, bridge chairman, and Mrs. Dwight D. West, canasta chairman, urgently request that the entry form included in last week's Foreword be completed and mailed before September 26, so that scheduling can proceed without delay. Anyone who failed to receive the entry blank may register by calling Mrs. Blackwell at CL 3-0737 or Mrs. West at CL 3-9100.

Cleaning Closets This Fall?

Residents are asked to put aside outgrown warm clothing no longer useful to the family. Bundle days will be October 11 and 12. The clothing is distributed in this country and overseas through the Save the Children Federation. In the southern Appalachian mountain area children will be able to attend school this winter because their parents could buy used garments at low prices, or if absolutely destitute, receive them free at Federation clothing centers. Clothing is shipped overseas to areas of great privation or localities struck by natural disasters where it is distributed without charge.

Parents Of Pre-Schoolers Be Prepared

Baby sitters will be at a premium the nights scheduled for preschool study group meetings now that the program has been released. The 1956-57 program will be:

October 2 at the Junior high school "Normal Problems of the Pre-school Child" by Dr. Augusta Jameson.

December 4 at the North school "Terrible Two's and Trusting Three's." Films and discussion led by Richard Hetke, principal of Ridge school.

February 5 at the Ridge school "Telling the Truth to Toddlers" by Dr. Franklin Fitch.

April 2 at Dryden school "Is Your Child Ready for School?" Discussed by a panel of teachers, R. E. Clabaugh, Moderator.

The meetings will begin at 8:15 p.m. Any parent interested in the problems of pre-school children is welcome to attend any meeting at any school. A printed copy of the program may be obtained by calling Mrs. V. M. Husty, chairman at CL 3-4759.

Virginia Terrace News

Group Activities

The general membership meeting of the Virginia Terrace Improvement association will be held Monday at 8:15 p.m. at the VFW hall on Yale at Northwest hwy. On the agenda is discussion of a kindergarten for school district 24, Virginia Terrace park, more efficient heating and an outline of the proposal to annex Arlington Heights to the Chicago Sanitary district by village trustees, Forrest Ravis and Richard Bronwell.

Christmas card Kaffee Klatsches were the subject of a meeting Tuesday at the home of Pat Gorman, 1440 N. Race. Among the hostesses planning these parties to sell Christmas cards are Doris Sullivan, Marguerite Cates, Dorothy Henneman, Helen Kersey, Jackie Koenig, Barbara Herrity, Anne Cardinell and Jean Sadowski. Sponsored by the St. James Women's guild, the proceeds from these sales will benefit the St. James building fund. Anyone interested in hostessing may call Pat Gorman at Cl. 5-0749.

Virginia Terrace residents will have ample opportunity to purchase Christmas cards, wrappings and gifts, as the Wilson school PTA is also sponsering the sale of these items with demonstration coffee parties to be given. This is one of the 3 fund raising projects scheduled for this year by the PTA. The other 2 are the round robin card tournaments, which are being organized at the present time, and a spaghetti dinner to be given in the spring.

A fall activity that has captured the interest of a group of residents is square dancing. Lessons are being given at Forest View school, S. State rd., Wednesdays at 8 p.m. Couples may enroll September 26 or October 3. A small fee is charged for each couple and there will be an opportunity to join a regular square dance club after the completion of the course. Anyone interested may call any of the following couples for more information: Shirley and Hobart Sco , Marge and Jerry Kirby, Nancy and Don Raymond, Lorraine and Rolf Jensen or Nancy and Jack Griffith.

Den Mothers Needed

The cub scouts of Wilson school pack 234 have resumed their fall meetings despite the fact there is an urgent need for additional den mothers or assistant den mothers. Any woman interested in contributing some of her time to the cub scouts may call Claire Dever, Cl. 3-7462, or Dorothy Murray, Cl. 3 8143.

Boy scout troop 66, St. James school, spent the past weekend camping out in Apple River Canyon, Ill. Danny Murray and Jim Sikorske and assistant scoutmaster, Harry Stevens, represented Virginia Terrace. Another resident to volunteer his services as assistant scoutmaster is Don Walters, 1614 Oakton.

The September meeting of the Wilson school PTA held last week had as it's special program the presentation of a general synopsis of curriculum for each grade. After the business meeting, each member of the faculty spoke and outlined what is expected of the child and of his parents.

Several Virginia Terrace residents, who have been playing duplicate bridge held Tuesday evenings in the Arlington Heights high school cafeteria, report that is is not necessary to be an expert to enjoy this fascinating version of the game: that beginners to duplicate are welcome and often beat the regulars. Anyone interested in information about the Arlington Heights Duplicate Bridge club may call Jack Griffith, Cl. 5 0263.

Vacations

Tess and Tom Rossell, 1425 N. Wilke, have just returned from a 17-day vacation, during which they drove to Florida, where they stopped to ride in glass bottomed boats at Silver Springs and particularly enjoyed a week's stay at Ft. Lauderdale. Tess reported that they were in the water an hour after their arrival at their motel at the ocean's edge. Their homeward way led through the Smoky mountains and on to Indiana, where they visited with Tess' family in Greenfield and Tom's family in Indianapolis. Tess' sister-in-law, Mrs. Max Reddick, with her daughter, Marci Ann, returned home with the Rossells to visit for a week before being joined by her husband.

Marylou and Jim Charleston, 1333 N. Chicago have returned from a vacation on Kentucky lake at Murray, Ky., where they visited with friends. Learning to water ski was a highlight of the trip for Jim. Upon returning home, Jim was elected to the office of commander of the American Legion ninth district, which includes 40 posts in the suburban area. Jim, a past commander of the Franklin Park post, will be installed as district commander September 26.

Richard Minogue, 1415 N. Illinois, joined his wife, Betty, and son, Ricky, at the family's summer cottage at Port Elgin, Ontario for the last 2 weeks of August. Betty and Ricky vacationed at the cottage on Lake Huron all summer.

Nancy Dalton, 1321 N. Illinois, with her daughters, Betsy and Christie, recently made a trip to New York to visit her father, S. A. Morrill, who is ill in a hospital; her mother, Mrs. S. A. Morrill and her sister and brother-in-law, Mr. and Mrs. Richard M. Allerton Jr.

Marlene and David Pendleton took their daughter, Jan, to New York to visit her great grandparents and many of David's relatives in the New York area. David's mother and brother, Mrs. M. B. Pendleton and Tom, accompanied them on their drive east.

Albert and Norma Pahr, 1428 N. Illinois, and their son, Gregory, vacationed at the Wisconsin Dells and Twin Lakes, Wis., where Norma was particularly pleased to get in lots of water skiing, her favorite sport for many years. After a week at home, Norma, Gregory and Norma's mother, Mrs. Marie Olsen, returned to the same region for another week of vacationing.

Jeannine and Jack Kearney with their daughters, Jeannine and April, vacationed in Denver, where they visited with friends at Glenwood Springs, and Manitou Springs, Colo., reputed to be the largest pool fed by hot water springs in the world.

Doris and Arnold Silver, 1247 Chicago, entertained Doris' aunt and uncle, Mr. and Mrs. Albert Wolf of Miami and New York, who visited the Silvers and Doris' mother, Mrs. Wolf, for a week.

Birthday parties occupied an important place in the social life of the younger Virginia Terrace residents last week. Dennis Herrity, 1347 Jo lane, entertained Larry Mueller, Paul Clore, Donny Von Ebers, David Cech, David Gorman and Chuckie Moser at a barbecue to celebrate his seventh birthday.

Also 7 years old is Jeannine Kearney, 1413 N. Wilke, who entertained 6 of her friends at her party. Jeannine's guests were Sherri Howard, Gail Whipple, Jane Hult, Jackie Rolfsen, Nancy Rosenthal and Maureen Gorman.

Two playmates at the north end of Virginia Terrace, Nancy Sorenson and Linda Donath, celebrated their fifth birthdays one day apart. Nancy had as her guests at her party Kurt Zabel, Bruce Leckie, Ricky Hayes, Linda Donath, Maribeth Martin, Linda and Donald Brown, Jim and Bill Dean, Marcia David and Linda Cech, Phyllis and Billy Visk and Joanne Kohler. Prospective Brownies to Call

Seven-year-old second grade girls attending Wilson or St. James schools, who are interested in joining brownies, should have their mothers contact Mary Kale, Cl. 3-9228, or Mae Courvoisier, Cl. 3 1757, immediately.

Also, residents are asked to pass this information on to neighbors who do not read this paper.

It Figures

There are more words in the English language than any other.

Richard Stengel, candidate for U. S. Senate, unhesitatingly predicted this week that his "diehard revolving door opponent" would be defeated, that the Stratton administration "will be overwhelmingly repudiated," and that Adlai Stevenson will be elected President.

Declared Stengel: "The Republican party has proved itself incapable of responsible public service."

* * *

OPPOSING incumbent Everett Dirksen for the Senate seat, Stengel said the GOP record in Illinois "is one of sordid graft and corruption."

Local Pi Phi Alumnae Plan Arrowcraft Sale

Pi Beta Phi alumnae club of Arlington Heights will hold its annual Arrowcraft sale 2 mornings of next week. Morning coffee will be served from 10 a.m. to noon Wednesday, Sept. 26, at the home of Mrs. Roscoe Batts, 416 S. Na-Wa-Ta, Mt. Prospect; Friday, Sept. 28, morning coffee will be served from 10 a.m. to noon at the home of Mrs.James Wood, 1106 Clarendon, Arlington Heights.

Everyone interested in seeing and purchasing handicraft articles on display is invited to come during those hours. Articles to be displayed and sold include hand weaving by students and residents of Gatlinburg, Tenn., where Pi Beta Phi national fraternity helps to maintain a settlement school. Besides the woven articles such as aprons, baby clothes, place mats, handbags, stoles and skirts, handmade sterling and copper jewelry will be featured. This is the club's only fund raising project of the year.

Arrowcraft is the registered trade mark applied to all craft articles produced under the supervision of and marketed through the fraternity's Arrowcraft shop in Gatlinburg. The weaving for Arrowcraft is an adult project to help men and women of the community to become self supporting. It is done in the homes of the mountain people under Pi Phi supervision and according to Pi Phi standards.In addition to being paid for their weaving they are given a ready market for their wares through the sale of these handmade articles by Pi Beta Phi chapters and alumnae clubs all over the U. S. and Hawaii. Arrowcraft helps an average of 100 families a year.

The settlement school was established by Pi Beta Phi in the Tennessee mountain town in 1912 and is still the only school in the area, although it now receives appropriations from the county, state and federal funds as well as from Pi Beta Phi. The fraternity leases the buildings and equipment to the county for $1 per year.

Besides the school, Pi Phi operates a health center with a qualified registered nurse and during the summer sponsors a 6-week summer craft school jointly with the university of Tennessee. The courses offered are for graduate or undergraduate credit or just for the pleasure of knowing and working with skilled craftsmen. Courses in weaving, textile decoration, jewelry craft design, recreational crafts and community recreation are given by authorities in the field.

Mrs. Joseph Faner, Arlington Heights, is chairman of the event and will be assisted by Mrs. William Hannum of Arlington Heights and Mrs. Gerald Hall of Palatine.

Palatine Teacher Weds In San Francisco

Mrs. Wayvo Roberts, Palatine, was married August 27 in the First Methodist church in San Francisco, to Bernard J. Weitzel of Tacoma, Wash. Their attendants for the noon wedding were Mr. and Mrs. D. Morsette, former Palatine residents. The bride wore blue polished cotton with blue accessories and her flowers were white orchids.

Mr. Weitzel, a retired army officer, and his bride honey-mooned by driving from the coast to Palatine, where they are living at 117 N. Cedar. At home with them are Mrs. Weitzel's children, Julia, 10, Jeslyn, 14, and David, 18.

Mrs. Weitzel is a kindergarten teacher in the Paddock school.(S

Favorites For Flavor

A delicious, golden brown coffee cake flavored with cinnamon and chopped nuts is our feature of the week.

The recipe has been shared with us by Mrs. Stanley F. Fill, and it is a great favorite with her family.

Called Hungarian Rolls, the cake is composed of small balls of a yeast dough. The balls are dipped in butter, then rolled in a mixture of cinnamon, sugar and chopped nuts.

They are then placed in layers in a tube pan and baked. The pan is inverted immediately, so that the melted butter drips over the entire cake.

The cake is eaten by breaking off the cinnamon rolls. It is tempting in appearance as well as taste. As this recipe makes two cakes, Mrs. Fill assures us that they may be frozen successfully, too.

Another favorite recipe of Mrs. Fill's is for Cream Cheese Tarts. Somewhat similar to a cookie, these rich, delicate tarts are delicious served for breakfast, at a morning coffee or afternoon tea, or as a dessert.

Simple to prepare, the dough consists of just three ingredients: cream cheese, flour and butter. The dough is rolled out, cut into circles and filled with jam or any prepared filling such as apricot, prune or poppy seed.

Mrs. Fill sprinkles chopped nuts over the filling, and after the tarts are baked she sprinkles them with powdered sugar.

A civic-minded woman, this good cook is active in several community organizations. Mrs. Fill is first vice president of the Prospect Heights Woman's club and a member of the newly-organized Prospect Heights Library committee.

She is also active in Girl Scouting and is a member of the PTA.

The Fills live at 301 N. Schoenbeck rd., in Prospect Heights. They have one daughter, Carole Ann, who is 12 years old.

Hungarian Rolls

2 packages dry yeast
½ cup warm water
1½ cups lukewarm milk
½ cup sugar
2 teaspoons salt
2 eggs
½ cup soft shortening
7 to 7½ cups flour

Soak yeast in warm water for 5 minutes.

Mix the milk, sugar and salt together. Add the yeast mixture and mix well.

Stir in the eggs and soft shortening.

Mix in first with spoon and then by hand the 7 to 7½ cups flour. Knead until easy to handle. Let rise until double in bulk.

Poke down dough and let rise again.

Take pieces of dough about the size of a walnut and form into balls. Roll balls in 1 cup melted butter.

Roll butter balls into mixture of:
1½ cups sugar
2 teaspoons cinnamon
1 cup finely chopped nuts

Place layer of dough balls around bottom of two greased 10-inch tube pans. Stagger second layer of balls and partially complete the third layer.

Let rise for 45 minutes. Bake in 375 degree oven for 35 to 40 minutes.

Invert pan immediately to let melted butter drip over entire cake.

Cream Cheese Tarts

1½ cakes Philadelphia Cream Cheese (12 ounces)
2 cups flour
½ pound butter or margarine

Cream cheese and butter. Add flour and mix well. Chill if possible.

Roll out dough and cut into circles or squares.

Place in the center any prepared filling, such as prune, apricot or poppy seed, or jam.

Sprinkle chopped nuts over the top, if desired.

Bake for 15 minutes in 400 degree oven. Sprinkle with powdered sugar.

Makes approximately 3 dozen tarts

Beta Sigma Phi Holds First Regular Meeting

Lambda Zeta chapter, Beta Sigma Phi sorority, held its first regular September meeting September 13 at the home of Dorothy Koch in Park Ridge.

Plans for a rush party for prospective members were discussed, and October 3 set as the date, the affair to be held at the home of Mrs. Shirley Orlick, 702 Cathy ln., Mt. Prospect.

As a service project, chapter members are baking cakes to be donated to the USO in Chicago.

October 29 the chapter plans a "toy party" at the home of Mrs. Marilyn Bigelow, 2019 Welwyn dr., Des Plaines. Mrs. Gloria Pisahl of Arlington Heights will present the toys and chapter members as well as other guests will attend the affair.

During the summer the entire chapter participated in a "Make a Dollar Grow" project, and the results were announced at this meeting; $22 was turned in to the treasurer and members related the various methods they used to "make the dollar grow." One member did her own ironing, presenting the savings to the project. Two other girls had a luncheon for their neighbors and charged a fee, as well as selling costume jewelry. Another girl made and sold tea aprons, another turned in her bridge earnings, and another made 2 cotton nighties herself and presented the saving to the chapter treasury. A Christmas tea apron was given away at the meeting, and was won by Dorothy Schroeder of Des Plaines.

After the meeting chapter year books were distributed and assembly completed by each member. These year books present a biography of each member, the chapter calendar of events and an outline of all cultural programs. They were illustrated and compiled by Marilyn Bigelow, Kay Swanson, and Katie Sciez of Des Plaines. Katie Sciez, advisor, had a contest to select the best cover for the book and each girl presented an entry several months ago. At the meeting she announced the results, which were judged by 3 members of a Chicago chapter, and Alice Gable received a prize of an attractive lucite key ring with Beta Sigma Phi yellow rose and lettering thereon. The covers were assembled and put on to the body of the books as a social part of the meeting.

Junior Womans Club Fall Meeting

The first fall meeting of the Arlington Heights Junior Womans club held September 11 in Mt. Prospect village hall combined a welcome for prospective members with a charting of the club's plans for the 1956-57 year, plus an interesting and worthwhile talk on parliamentary procedure by Mrs. C. Hamburg Jr., the club parliamentarian.

Active and prospective members were fired with enthusiasm for the anticipated year's work outlined by chairmen of the standing and special committees. Work will include active participation in and fund raising projects for both local and state philanthropic organizations.

Highlighted among these will be the Wheeling Braille classroom, the annual nursing scholarship presented to an outstanding member of the senior class from Arlington Heights high school, additional contributions to the Northwest Community hospital fund, contributions for the Mt. Prospect and Arlington Heights libraries, boy and girl scouts, Little League, Northwest Suburban YMCA, cancer research

Fund raising projects for the 1956-57 year will be kicked off with the annual fall dance originally known as the hard times dance and this year newly named the autumn mardi gras. The affair will be held October 13 at Fred's place from 9 p.m. with music by Claude Johnson's orchestra.

Following the formal presentations of these club plans, prospective members were welcomed at an informal coffee and cake get-together.

Ending this first meeting, the Arlington Heights Junior Woman's club members expressed sincere hope that the community would help them make this anticipated active year a success to achieve their hoped for community betterment goals. (AM

Ford Trucks cost less

Ford's F-100 pickup with 8-ft. box is the biggest in the half-ton field—up to 19 cu. ft. more loadspace than the others. Regular 6½-ft. box with a full 45 cu. ft. capacity also available.

And low first cost is only your first saving

COME IN TODAY!

• Before you buy your next truck, look at both sides of Ford's story of value. Check what you get and what it costs. You'll like what you see.

Look at the costs. Ford's first cost is low. Resale value is high. Modern Short Stroke engines—V-8 or Six—are designed for less friction, less wear, lower running costs. Maintenance costs are lower, too, because Ford trucks are built stronger for rugged long life. And a 10-million truck study *proves* Ford trucks last longer.

Look at what you get and you'll see you get *more* in a Ford. For example, more horsepower per dollar—proved by a comparison of factory-suggested list prices and net horsepower of all truck lines. You get more comfort and safety in Ford's Driverized Cab with exclusive Lifeguard features.

Look carefully . . . consider everything. You'll agree Ford trucks cost less, give you more. If you want a great deal—a great deal *more* for your money—see your Ford Dealer.

FORD TRUCKS LAST LONGER
Using latest registration data on 10,502,351 trucks, insurance experts prove Ford trucks last up to 9.9% longer.

Heights Legionnaire To Be Installed Dist. Commander

James J. Charleston, 1333 N. Chicago ave., Arlington Heights, will be installed as commander of the ninth district American Legion September 26 at the headquarters of Belmont Park post, 3109 Belmont ave., Chicago. Ninth district is made up of 40 posts on the northwest side of Chicago and northwest suburbs.

Charleston, a veteran of both World War II and Korea, succeeds Guy L. Dickerson of Chicago.

The new commander saw active duty in World War II as a member of the amphibian forces on a landing ship medium and participated in the invasion of Okinawa. Recalled to active duty in 1951 he saw action in Korea as a member of the staff of the battleships Wisconsin and Iowa. He is employed by the Pipe Line Service Co. of Franklin Park.

A past commander of the Franklin Park post where he formerly resided, he now lives in Arlington Heights with his wife, the former Marilu Fenlon, a daughter of Lawrence and Mrs. Fenlon, former Arlington Heights residents. Mr. Fenlon was a member of an 8-man committee which drafted the GI Bill of Rights.

Other officers to be inducted are Norbert Sobczyk, Chicago, first senior vice commander; Wallace A. Schroeder, Chicago, second Senior vice commander; Frank Sodoma, Chicago, junior vice commander; Raymond Roper of Arlington Heights as adjutant and Raymond Miller, Chicago, finance officer.

The public is invited and refreshments will be served by ladies of the auxiliary.

'Around The World' Race Begins Rally Day

Each class of the Arlington Heights Free church Sunday school will be at the starting line September 23 as they begin the "Around the World" contest. The contestants have only 6 Sundays to complete the race around the globe. Teams of students from the nursery to the Junior Hi age are training vigorously so they can capture the coveted awards.

Contest chairman, George Travers, says the winning team needs a perfect score on attendance and promptness plus the largest number of new members. Points will be given for each of these factors and these points will be expressed in miles and marked on the contest globe.

To make the race more complicated and strenuous the Arlington Heights Sunday school will compete against the Crystal Lake and Glenview Free church Sunday schools. The 3 will race against each other to find out which one can get "Around the World" first. It's going to take a lot of hard work to beat the other schools even though they're smaller, because miles will be made on a percentage basis. This will be the percentage of increased attendance over the 6-week period.

Arlington Heights Free church will also hold its Rally day in the church sanctuary, Dunton and St. James sts., Sunday.

"Never use permanent type anti-freeze longer than one winter season." This recommendation by leading automotive manufacturers and societies is based on facts.

Mr. E. W. of A. H. used the same permanent anti-freeze for 3 seasons. Result: Corrosion and seepage, 3 frozen wrist pins, scored cylinder walls and broken pistons — cost of repair, $165.

Mr. G. K. of A. H. used a so-called competitive anti-freeze Result: Within one month of purchase — engine frozen solid — cost of repair $110.

The answer to these facts is SHELLZONE Anti-Freeze manufactured by the Shell Oil Company — guaranteed protection in writing against costly repair bills caused by corrosion or freezing.

Stop in and let us prepare your car for the coming winter with SHELLZONE — your guarantee for a carefree winter's driving.

DAR Places Wreaths On Vets' Graves

A memorial ceremony in Elk Grove cemetery Monday marked an official observance of Constitution Day in Arlington Heights.

Participating were 35 members of the Daughters of American Revolution.

They placed wreaths on the graves of Eli Skinner and Aaron Miner, both veterans of the Revolutionary War. The only other such soldier in Cook county is buried at Lincoln Park, Chicago.

THE ARLINGTON Heights DAR chapter is named after Skinner, and direct descendants of Miner live today in Arlington Heights. They are Mrs. Josephine Roziene Zimmerman and Mrs. Madge Gibbs, Savage, members of the DAR chapter.

Constitution Week, September 17 to 23, was initiated as a project of the national DAR and gained official recognition when President Eisenhower signed a bill setting the week aside for such observance.

Round 'n About Westgate

Westgate Community Association

A 'job well done' was Jim Blocki's only comment on all the work accomplished at the circle at Fremont and Yale aves. last Saturday morning. Association members, both women and men, turned out to weed, cut the grass, trim, fertilize and seed the corner island. It should be a place of beauty next spring. It is certainly gratifying to see so many residents come out to help with so much work of their own to be done.

Christening

Kenneth Kuharich, infant son of Louise and Charles of 1701 Fremont was christened in Our Lady of the Wayside church Sunday. The babys godparents are Mr. and Mrs. S. Ventura of Barrington. A buffet supper for 45 relatives, friends and neighbors followed the christening.

Ricky Burnes celebrated his 10th birthday September 10. A badminton set together with a birthday party with 6 of his neighborhood friends helped to make the day a happy one. Ricky is the son of Lorry and Collen Burnes, 246 Yale.

A double birthday party was celebrated at the home of Mr. and Mrs. Donald Bernson of Bensenville Sunday. Michael Madden of 1501 W. Euclid and his cousin, Gerry Bernson, were honored in a joint celebration with 13 of their cousins and all their relatives on hand for the occasion. A buffet supper followed by games for the children was enjoyed by all. Michael will be 6 September 23.

Another pre-birthday celebration was held for Raymond Herigodt, son of Caroline and Bob of 1513 W. Fremont last Sunday. Seventeen guests were invited for a chicken barbeque. Raymond will celebrate his fourth birthday this coming week.

This 'N That

Neighbors on Fremont st. were sorry to see Mary Margaret and Ernie Snoyer of 1503 Fremont leave Westgate this past week. The Snoyers moved to Skokie to be closer to Ernie's work.

Congratulations go to Arlene and Fred Hauth of 512 Yale on the recent honor bestowed upon them by the American Legion post 208. Last Saturday Fred was installed as second vice commander of the post and Arlene was installed as first vice president of the Women's auxiliary.

One of the bluebird groups here in Westgate is well organized to the date of this writing. On hand at their first meeting last week were Laura Baranowski, Carol Herda, Debby Hoppe, Monty Lou Jensen, Pamela Potter, Susie Shader, Sheryl Thuerk and Mary Jo Welton. Leader of the group is Mrs. Cleta Herda, 243 Yale, and co-leader is Mrs. Doris Jensen, 1602 Campbell. The girls decided on the name of Blue Feathers and made oilcloth aprons at the meeting. Any second grade girls still interested in bluebirds are urged to join now.

Saturday afternoon members of the Spartan Little League team were entertained with a party at the home of their manager, Frank De Rosa. Mr. De Rosa presented each of the boys with a trophy for coming in first place in the south side juniors. The boys presented Mr. De Rosa with a sport shirt. Cake and milk were served and Richard Burkett, father of one of the boys and also a coach for the team, showed movies of the games played by the team. Team members include Rickey McInnes, Dick Rosholt, John Puegel, Jimmy Winkler, Tom Cabat, David Gooding, Jeff Allison, Darrell Burkett, Bill Swarthout, Don Mullner, Walter Mazzei, Jim Baschleben, Skip De Rosa, Michael Graczyk, Mike Granis, Bill Fortin, Reed Olson, Bob Herigodt and Charles Hood.

HOME OWNERS' QUESTION BOX

Q—While I was painting the kitchen woodwork a few spots of paint fell on the porcelain enameled surface of the stove and refrigerator and dried before I noticed them. How can I remove the spots safely?

A—THESE MUST be handled with care or you can ruin the finish of the appliance. Try rubbing the spots lightly with a soft cloth moistened with paint remover. If this doesn't work, scrape away most of the paint with a razor blade, but be careful not to cut into the enamel.

HVWP Contestant, Now Author, To Be Guest

Readers again are reminded of the benefit luncheon for the Hospitalized Veterans Writing Project to be held Thursday, Sept. 27, at Villa d'Este near Cary, formerly the home of Otto Schnering and originally the home of John D. Hertz.

HVWP is a not-for-profit organization and its purpose is to encourage hospitalized veterans to try creative writing for their own recreation and rehabilitation. This year the organization sponsored the 10th annual contest and 134 Veteran Administration hospitals sent in several thousand entries.

Money for the operating expenses involved in promoting and conducting HVWP activities is furnished by contributions from friends and by the proceeds of the annual benefit held each fall. This year's benefit is the luncheon mentioned above and the volunteers who do all of the work of operating the project expect a good turnout.

Special guests at the luncheon will include a former HVWP contestant now out of the hospital and a publishing author. Reservations may be made by calling Mrs. William E. Hunter, Barrington 1226. (B10

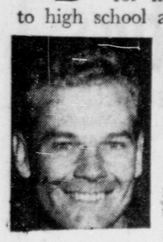
Cards To Open League Play Against York Friday Night

KICKIN' IT AROUND

by Bob Paddock

DICK BOKELMAN has earned another baseball honor for himself and Arlington, honors dating way back to high school and college days at Northwestern, plus a minor and major league career. This time Dick has been named a member of the Midwest semipro baseball league all-star team slated to compete Sunday, Sept. 23, against the league champion Kolski Booster team.



Dick Bokelman

Dick has been No. 1 twirler for the Arlington Redwings this year, with a good earned run average and outstanding performances throughout the season. Final official figures raven't been compiled yet, but Dick's ERA is expected to border on 1.0.

Also named to the all-star team for Sunday's game at Skokie starting at 2:30, will be Lloyd Meyer, local second baseman, and Bill Anderson, Redwing first baseman. Lloyd also has a good record of high school and college ball behind him, as well as a couple of successful years coaching the Arlington Junior Legion baseball entry.

GOLF IS FARTHEST from the minds of many of us these days, but a quick visit to the office of Arlington's golf coach this week brought back memories of last spring's state championship brought home by Mike Spinello, Wayne Rolfs, Bob McDonald and Ed Holm. This foursome, along with Tom Jacobsen, Denny Evans and Bob Hammerl, did a creditable job on the links for the school, continuing the tradition at Heights of always having good golf teams.

That 281 4-man total still stands as a national prep record, as far as available information can tell. Rolfs hit 67, McDonald 68, Spinello 71 and Holm 75 on that magic day at Old Orchard against LaGrange.

Golf Digest, a magazine for golfers, called attention to the record low of the Arlington high golf foursome, asking if any school had done any better. Three months have gone by since that time, and no one has disputed the national mark of the Card golfers.

Here are the won-loss-tie records of the 7 golfers on Coach Larsen's state championship team, with average score of each for the season:

	W	L	T	Ave.
Bob McDonald	17	0	0	74.4
Mike Spinello	10	5	2	75.6
Wayne Rolfs	14	1	2	76.7
Denny Evans	7	1	1	80.1
Ed Holm	14	2	0	80.4
Tom Jacobsen	9	0	1	81.2
Bob Hammerl	3	0	0	88.6

WE ARE NOT a personal press agent for John Deininger, Arlington grad still with the Chicago Bears, but we know fans are pulling for John to make Halas' team when official season begins 1 week from Sunday. Ever since John injured his knee against the Cardinals he's been out of action, but showed enough to Halas first weeks of training to warrant his being kept on the roster.

The squad has now been cut to 40 in preparation for Friday night's armed forces benefit against Cleveland Browns in Soldier Field.

John was at the Heights game Friday night, and asserted he was ready to play again. He reports the Bears have been very cooperative with him and other rookies, always willing to teach and offer help. Whether John plays against the Browns Friday night or not, we are among dozens of fans who hope he makes the grade come Sept. 29, when the season is official and pay checks start appearing.

* * *

BIG PROBLEM for cross country coach Russ Attis at Arlington is bringing his squad back into West Suburban league contention after a pulled tendon put Bill Palmer out of action. The outstanding runner was 28 seconds faster than the No. 2 man on the team.

Prospects for the Cards taking top honors in the league this time were good until now.

Whether Attis can regroup his forces into a West Suburban contender remains to be seen. It takes all-round balance with as small a time interval as possible between finish of first and fifth men. Hinsdale and LaGrange harriers for instance, had 16 and 20 second intervals in this category last year. Heights had cut its time to 30 seconds.

At any rate, Arlington's hopes will rest upon the cleats of 3 sophs, a junior and a senior. That's a nucleus of the next couple of seasons to come.

* * *

WEST SUBURBAN sports chairmen this year are varsity coaches at York high school . . . The league passes the jobs of chairmen in all sports around the loop alphabetically, with John Fischer, athletic director at York, No. 1 man this season . . . New athletic director at Riverside this year caused that school to be passed by, but R-B will do honors next year . . . Arlington will have the job the following season.

Lake Park high school will open Northeastern conference competition this year when basketball rolls around.

Newly formed group held both track and golf meets last spring at Belvidere, with the 5 schools other than the new one at Medinah participating . . . These included Elmwood Park, Marmion of Aurora, Belvidere, North Chicago and Round Lake . . . Official league competition will begin this year with the basketball season . . . All you folks who turned in those size 50 football pants of 285-pound Willy Tipsord of Medinah at Lake Park, can have them back . . . Football coach Bill Buckellew regrets to announce the heavy lineman has gone back to Roosevelt high of Chicago, which he attended before moving out our way this fall.

* * *

NOTRE DAME has had 2 losing football seasons . . . One was in 1933 when the Irish finished with a 3-5-1 record . . . Victors were Cornegie, Pittsburgh, Navy, Purdue and Southern Cal . . . Other bad year was a 0-1 season, the school's first, in 1887 with Michigan whipping Notre Dame, 8-0 . . . The 67 season record for the Irish is 432-88-34, an .831 percentage . . . Highest score for Notre Dame was a 142-0 affair against American Medical college in 1905.

Double shift of Glenbard high, so well remembered at Arlington just last year, has changed schedule for JV and frosh games with Downers Grove.

Institute day at Glenbard has moved the JV game Oct. 15 from there to here . . . Double shift of classes has switched the frosh game Oct. 16 from here to there . . . Another change is moving up the JV game with York Sept. 24 from 4:00 to 3:30 due to a banquet at the Elmhurst school . . . We don't know whether to believe this or not, but we've been told a Mexican discus champion (in his age group) has enrolled at Arlington . . . Now all weight coach Bill Beckman will need is an interpreter.

ASHLEY HAASE carried the ball for Arlington in this moment of the Arlington-Leyden grid opener Friday night, the game ending in a 12-12 tie in spite of a thrilling finish by the visitors. Tom Grey Leads Cards To 12-12 Leyden Tie

Arlington high's Cardinals came up with a few surprises in their 12-12 tie with Leyden township last Friday night. Although held to a draw, the locals issued a warning to other conference members — this may be the year for an underdog.

Number one surprise was quarterback Tom Grey. Tom, substituting for the injured Dennis Thill, left very little to be desired. He personally tallied Arlington's first touchdown on a 4 yard option play which followed a blocked punt early in the game. Grey completed 3 of 7 passes, one of which was good for a 42 yard touchdown play. Grey left the coaching staff jubilant over the fact that they now have 2 number 1 quarterbacks on the squad.

* * *

A JUNIOR fullback and defensive linebacker Jack Weber also stood out for the Birds. Weber was on the receiving end of Grey's TD toss, taking the pass on the 30 and racing the remaining distance to the goal. On defense Weber consistently moved up to stop Leyden ball-carriers at or shortly beyond the line of scrimmage. The Cardinals found they were also 2 deep at fullback, Weber being rotated with another junior, Bob Berg.

A floating pass defense gave Leyden quite a bit of trouble. The Eagles completed only one of 6 aerials, with 1 intercepted. During the first half Arlington's line was hard to move. The visitors registered only 3 first downs and made no serious threat scoring-wise.

* * *

ARLINGTON'S first score came in the first few minutes of play. A hard charging Cardinal line blocked a Leyden punt, and fell on it on the four-yard line. From there Tom Grey took it over on the second play from scrimmage.

A second touchdown drive by Arlington in the first half failed to materialize. The Cardinals moved from their own 25 to the Leyden 39 before relinquishing the ball, two feet shy of a first down.

An intercepted pass at the end of the half gave the locals another chance on the Leyden 39. However time ran out before the Birds could tally.

* * *

WHETHER IT WAS a tired Cardinal line or an inspried Leyden backfield, the tide turned in the second half. The Eagle backs found holes in the Cardinal forward wall, scoring in each of the two quarters.

A sustained 55 yard march gave the visitors six points with 5:27 remaining in the third quarter. Four first downs were included in the TD drive.

The Cardinals retaliated in the early moments of the fourth canto. At the end of the third quarter the ball was resting on the Arlington one-yard line as a result of a Leyden punt. From that point the Cardinals moved 99 yards in 11 plays, scoring via Grey-Weber air route. Arlington again missed the try for point after touch down and kicked off with 7:57 left.

* * *

LEYDEN TOOK the kickoff and returned it a total of 68 yards, using 12 plays and five first downs. When the Cardinals received their final chance of the evening they had only 2:42 in which to score. Failing to click on the passes, they were forced to punt. Leyden ran out the remaining time.

Coach Ormsbee singled out linemen Jim Hoffman, Dan Vittum, and Ed Meinken as having played exceptionally well. He praised the punting of Jack Weber and mentioned the consistent kicking of Leyden's fullback as one of the deciding factors of the game.

BOB DOSS picks up a few yards for Leyden against Arlington Friday night, the 2 teams finishing in a 12-all tie. Doss was immediately tackled here with the Cards' Jim Peery rushing up to help. —Staff photo

Palmer Out, Harriers To Host York Friday

Bill Palmer will be out of cross country action at Arlington high school 1-4 weeks.

That was the bad news facing Coach Russ Attis this week as his No. 1 man, outstanding Bill Palmer, pulled up lame. Palmer suffered a pulled tendon, and will be out of action for awhile. He'll probable be saved for the West Suburban conference meet and district competition.

* * *

AND AS IF that wasn't enough for the harriers, the 3 other lettermen are not to be found among the first 5 boys.

Tom Jacobsen has dropped the sport, due to weight problems and recommendation of his doctor. The lanky captain of the basketball team will save his weight for the cage sport later in the year.

In addition, lettermen Alan Hutchinson and Dick Koopman still are not in top form. There are 42 boys out for the sport, however, and all of them will run at home against York Friday afternoon, starting at 4:30.

* * *

FIRST 5 BOYS will probably be 3 sophomores, Bob Taggart, Ron Marks and Ken Corter; senior Ted Geocaris and junior John Anderson.

Just how this fivesome will stack up against the opposition remains to be seen. Coach Attis will have a better idea after Friday's match is over. Managing this year's harriers is Jerry Kouzmanoff. (Sp

Somewhat pleased with his team's showing, Ormsbee stated that this is the first time in nine or ten years that the Cardinal eleven had started the season with something other than a loss. (Sp

Former 'A' Men To Be Guests At York Game At Heights Friday

Major "A" winners of past years at Arlington Heights high school can still get their complimentary ticket to the York football game Friday night by contacting athletic director Wally Grace prior to game time.

The York contest is the "A" men's game this year and all former letter winners at Arlington are invited to be guests of the athletic department. (Sp

Leyden Trips Card Sophs Without A Single 1st Down

Leyden's frosh-soph team pulled quite a trick last Friday night when they defeated Arlington's underclassmen, 6-0. Not that Arlington's youngsters expect to be world-beaters, but the Leyden eleven accomplished the feat without registering a first down in the entire game.

An intercepted pass by Rich Arling early in the fourth quarter gave the visitors all the scoring needed for the victory. Arling grabbed a flat pass on the 50 and raced untouched to the Cardinal end zone.

* * *

THE YOUNG Cardinals moved the ball well, rolling up seven first downs. Bob O'Neill and Al Sander led the Arlington attack and, as one observer remarked, "those boys could do everything but score."

With the exception of the one fatal interception, quarterback Barbour's passing was one of the highlights. Barbour completed six of eight aerials for a total of 38 yards.

The frosh-soph line held the visitors in check throughout the ball game as is shown in the first down totals. However, as the Leyden coach said after the game "It's the touchdowns that count, not how you get them." (Sp

York Has 5 Lettermen Returning

Arlington and York launch their 1956 West Suburban conference schedules Friday night when the Elmhurst school journeys to the local gridiron and attempts to forget about the 45-0 drubbing administered by a very strong visiting Elgin eleven last Saturday.

John A. Fischer, head coach, has 3 new assistants and probably wishes the player personnel situation was on equally strong ground, but he can unfortunately rely on only 4 or 5 returning lettermen from last yea'rs squad which wound up with a record of 2 wins and 6 losses.

* * *

FOREMOST among the returnees and being counted upon heavily this year are centers Chuck Christensen and Duane Slayton who shared that position in 1955. Christensen is also a punter. Additions to the York coaching staff are John Kovatch from Northwestern (varsity), James Toman from Springfield (frosh-soph) and Joseph Newton from Northwestern (frosh).

Other lettermen back for the 1956 campaign are senior end Billy Evans, senior fullback Bob Ottoman and junior fullback Ken Gammon. Gammon can only be listed as a probable asset to the squad, however, pending the definite status of a shoulder separation suffered in summer baseball.

Wessman-Cunningham Plans Grand Opening

Grand opening of Arlington's new complete sports store, Wessman-Cunningham, Inc., is being held the 8-day period from Sept. 21 to 29.

The well-known sporting goods company, suppliers of high schools throughout the state for years, will have its Arlington store open every weekday evening during this period until 9 o'clock. Arlington Will Have Hands Full In Home Tilt

Arlington's football Cardinals will open the West Suburban conference season Friday night at home against York, a team massacred last week by powerful Elgin.

The Heights eleven surprised many fans with a creditable showing last week against Leyden in a tie game that could have been Arlington's. Looking particularly good for Coach "Bus" Ormsbee's charges were Tom Gray at quarter, Jack Weber at fullback, Ed Meinken, Jack Hoffman and Dan Vittum in the line.

* * *

NEW QUARTERBACK from West Bend, Wisconsin, showed well. He went all the way against Leyden, picking his plays well, doing an excellent job of calling signals at the line of scrimmage.

The huddle has disappeared from the Arlington scene. The team goes immediately to the line of scrimmage after each play, and moves off as soon as signals are called.

Jack Weber was an outstanding ball carrier and pass receiver against Leyden, with his punting also pleasing fans. His 42-yard aerial pass from Gray for a touchdown was the climax of a 99-yard drive, first in Arlington's history, after a Leyden punt had rolled dead just 1 yard from the goal line.

* * *

THE LINE did an excellent job of stopping Leyden the first half, but weakened the second. There were some weaknesses, however, and some changes in personnel at a couple of spots will be changed come Friday night.

Among those pleased was Coach Ormsbee. "For once Arlington can move both in the air and on the ground," stated "Bus." "We've gone one way or the other in other years, but have never had a diversified attack since entering the West Suburban loop. Our blocking still needs work, both for the line and the backs. We're stressing defense this week, hoping our line can do as well against York the entire game as we did against Leyden that first half.

* * *

AND ARLINGTON will have its hands full. York lost, 45-0, but to very highly rated Elgin, which averages 205 in the line, 188 in the backfield. Some fans called the Watch City eleven "a good small college team certain to go places in the Big 8."

Denny Thill, No. 1 quarterback for Arlington prior to September, is still carrying his "other arm" in a cast for protection, still hasn't seen any action.

Hinsdale definitely appears to have the edge once again in the West Suburban league, with La Grange and Maine close behind. That 32-0 Hinsdale win over Joliet bears this out. LaGrange has a wealth of lettermen returning, and finished in a second place tie with Arlington and Maine last year.

* * *

HINSDALE has 10 lettermen, will be smaller than usual, will cause plenty of trouble for everyone if only on tradition alone. Coach Harvey Dickinson, reports "doubt if we can manufacture enough offensive strength to go through" but his teams have won the last 3 titles, and has a good chance again this time.

Big obstacles will be LaGrange and Maine. The Lions have 11 lettermen, are always a threat. Maine is big and fast, had a terrific championship soph team last year, but has a reputatioin of "once beaten, they fold."

* * *

DOWNERS GROVE had frosh-soph champs of 2 years ago, but probably lacks maturity to turn the trick this time, particularly after a 1-5-1 slate last time. Glenbard appears improved but lacks the reserves necessary. York is slowly improving, putting great emphasis on sports, could be tough. Riverside is expecting another rough season.

York leads in the series with Arlington, 3-0, with 2 ties. Home team has won only 2 of the affairs with Arlington scoring 52 points to York's 71. Two-team scoring record was set in 1954 when York stopped the Cards, 31-25. Both ties were 7-7 affairs.

* * *

THE FROSH-SOPHS will probably present the same lineup for the York game as they did for Leyden. Leyden won in spite of failing to produce a single first down when a pass interception good for 50 yards decided the contest.

Bob Barbour called a good game for Heights with Al Sander calling a good game at quarterback. No injuries were sustained, so Coach Bill Beckman's charges are certain to be at full strength.

Card Frosh Gridders Blank Leyden, 12-0

Arlington won its opening freshman football game against Niles Friday afternoon, 12-0, with the local yearlings scoring in each of the first 2 quarters, then experimenting with many combinations, including 4 quarterbacks.

Alan Westegard scored the first TD as he circled left end for 25 yards. Point after touchdown attempt failed. Second hunk of paydirt was reached when George Bork tossed a 20-yard aerial into the end zone, into the arms of right end Ricky Johnston. Plunge by John Lopata for extra point failed.

* * *

BORK CALLED an acceptable game for the frosh, showing good poise for a first yearman. Other boys working for the quarterback spot included Gustafson, Mundy and Dahlquist. Dempster Leech and Roy Klehm were standouts in the line, both offensively and defensively.

Leech was the only casualty of the Niles game, sustaining a mouth gash inflicted by a tooth. He was among missing at practice Monday, with Neiland stepping in and filling his center position admirably. Coach Curtis Larsen is planning several changes for the York contest Monday, including Tony Stavros as linebacker.

* * *

THE FROSH, including the "B" group under the direction of Coach Rusty Dowelle as well as those led by Larsen and Maurice Kellogg, is stressing blocking and tackling daily. There are still 59 boys out, a drop of only 6 from the original 65.

The coaches are still looking for kickers, an important part of any team. (Sp

Palatine Varsity Underdog; Sophs Are Favored

Northwest conference season opens Saturday with all teams playing the same day. Afternoon games are Palatine at Wauconda and Ela-Vernon at Grayslake. In the evening at 6:30 Glenbrook's defending champs play at Antioch in a doubleheader and at 8:00 Fenton has a single game at Grant.

Palatine will again be the underdog when they take the field in the varsity game at Wauconda. Palatine's sophs are favored to beat Wauconda as they have each year of the past 4. The Pirate varsity will, like last week, be up against a good quarterback and a passing attack. Bill Weinberg was second all-league quarterback last year, is a deft ball handler and can throw accurately as well as do a good job of carrying the ball.

* * *

WAUCONDA'S LINE is heavy and experienced and will outweigh the Pirates about 5 to 10 pounds to the man. The Bulldogs last week tied 7-7 with a McHenry team which had 15 returning lettermen and most of it's 1955 regulars.

On the basis of their showing Saturday and the number of experienced players, which number 14, Wauconda may have a bit too much for the Pirates but the latter are coming along and the 40-0 defeat at Barrington should be discounted. Barrington appears to be as good or better than the Glenbrook team which beat Palatine 32-0 in the league opener last season.

* * *

PASS DEFENSE will be the main emphasis in Palatine's preparations for Saturday's game. Charley Feutz is planning to spend most of the week on the fundamental techniques which the team failed to perform up to par at Barrington. The Palatine team had poise and looked well organized and ready Saturday even when deluged with touchdown passes.

No Palatine team ever looked so good absorbing a one sided defeat as did the Pirates last week. The team is in better condition than in recent years and no injuries were suffered in the Barrington game. (Sp

Broncos' Backfield Power Too Much For Palatine, 40-0

Barrington's power laden Broncos ran over Palatine's green pirates Saturday 40-0 with a devastating aerial attack. With Walbaum and Thorpe doing the tossing Barrington completed 14 passes for a total of 232 yards and 4 touchdowns. Palatine did a very respectable job of holding down the Bronco running attack and looked particularly good on both offense and defense from tackle to tackle. It was in backfield class, pass catching, and defensive end play that Barrington is the class of the area among schools of their enrollment. The game was played at Barrington before an opening day crowd of 1,500.

The Broncos galloped to 2 touchdowns and a 14-0 lead before the game was 5 minutes old. The first score was set up by runs of 4 yards and 19 yards by Walbaum, an 8 yard plunge by Dave Buckley and a 10 yard pass from Walbaum to Michaels. The touchdown was a 26 yard pass play from Walbaum to Chuck Berg. Soon afterward Barrington blocked Palatine's punt and recovered on the Pirate 28 yard line. A pass of 9 yards to Dave Brandt and runs of 3 yards by Bill Stirlin and 10 by Michaels made it first down on the 4 from where Stirlin scored. Walbaum kicked both extra points.

* * *

BARRINGTON MADE it 20-0 at the half with another TD in the second period on a 90 yard punt return by John Walbaum. The shifty running Bronco quarterback was nearly trapped on his own 10 but the Pirates converged on him and left the east side line free for a 90 yard scoring romp. Palatine tacklers had four shots at Walbaum but his change of pace had them fooled. Barrington was knocking at the door as the half ended with the ball on the Pirate four after passes of 20 yards to Berg and 10 yards to Banks and a 22 yard run by Jim Hagedorn.

Early in the third period Barrington marched from their own 24 to score, highlighted by Bill Thorpe's passes of 8 yards to Berg and 32 yards to Wabaum. A pass of 28 yards to Walbaum brought the touchdown. A little later Palatine was penalized back to their 1 yard line and finally punted out to the 16 with the kick partially blocked. On the first play Thorpe passed to Henry Michaels for the touchdown. In the last quarter Warren Honemann of Barrington stole the ball from Nordin of Palatine on the Pirate 43. A 16 yard run by Michaels, a pass of 10 to Brandt, followed by a 17 yard toss to Brandt was good for a score.

Touchdowns: Walbaum (2), Sterlin, Berg, Brandt, Michaels.
Conversions: Walbaum (3), Honnemann.

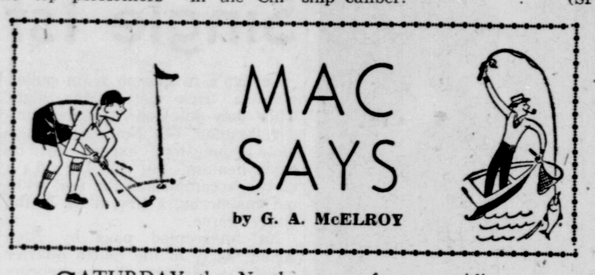
BERG AND BRANDT at ends and Walbaum, Thorpe and Michaels in the backfield were Barrington's outstanding players. Thorpe appeared to be the best passer with John Walbaum, outstanding as a passer, ball carrier, safety man, and pass catcher, giving evidence of being one of the top performers in the Chicago area.

Dick Wisner at quarterback was a good field general for the Pirates and ran back punts and kickoffs exceptionally well but had little blocking on end runs. Bob Nordin gained more than half of Palatine's total net yardage through hard hitting plunges into the line. The Pirates appeared woefully weak against Barrington's passing attack which was of championship caliber. (SP



SATURDAY the Northwest conference gridiron season officially opens with Palatine at Wauconda, Glenbrook at Antioch, Fenton at Grant, and Ela-Vernon at Grayslake. In this first set we would pick Wauconda, Glenbrook, Grayslake and Fenton as the probable winners but this does not mean that these 4 are the best teams in the league.

Last weekend all the teams got their first test. Some met weak opposition and others, like Palatine, met the best.

This week we planned to briefly review the prospects of the Fenton, Ela-Vernon, and Grant teams and make our picks for the final standings. Fenton will make their strongest bid in several years for first division consideration. Coach Paul Henry has five regulars from a team which had one win and one tie last year. The Bisons came fast under Henry at the close of the season and upset Grayslake who had a 5-1 record at the time. We think the Bisons will be 4th or 5th but they right rank higher.

★ ★ ★

LARS HENRIKSEN outstanding basketball guard and captain and quarterback of the grid team, will be an athlete to be reckoned with this year all the way. Henriksen is a good passer, punter and ball carrier and weighs 180 pounds. Leon and Wayne Langguth will be a tough brother combination returning as regular tackle and end. Leon weighs 190 and Wayne 200. Russ Kruse 155 guard; and Ken Coper, 135 halfback; were regulars on offense last year. Bob Fritz 165 halfback; Glen Dierking, 145 guard; and Phil Sloan, 162 center; won letters as substitutes.

The Bisons have less experience but more depth and speed and should be moving up this season.

Grant is expected to be one of the low teams in the standings this year. Coach Paul Lewis will have a light fast team with few experienced players. Bob Autschbach who moved from fullback to quarter last year when Madden was injured, is a fine ball player weighing 180 and will return to his original position. Ronnie Madden, who was out for the year after two games, will be back to direct the team at quarterback and is a fine forward passer. Jerry Bieneman is a 174 pound senior tackle who is a good punter. Morris Jaranson 152 guard and Peter Kennel, 162 center, are the only other lettermen available. Monnie Moore, who like Madden, finished the year with injuries suffered against Grayslake, is a fine end prospect weighing 172. It looks like another rough season for the Bulldogs who have over the years has been one of the football strongholds of the conference.

★ ★ ★

BILL LEHMANN always has a strong team by midseason regardless of material at Ela-Vernon. This year his squad shapes up not quite as strong as a year ago when the Bears had a 5-3 record. Lehmann has eight lettermen but only Phil Light, 175 center; and Chuck Gilman, 170 guard; were regulars last year. Gilman has been shifted to fullback. Norm Jesse, 160 guard; Tom Wesner, 160 end; Erv Pohlman, 155 back; Frank Keough, 155 back; and Ric Lippincott, 160 guard; are lettermen with limited service. The Ela varsity squad is small and green with five sophomores expected to see a lot of action with the varsity.

Last year Ela-Vernon finished fourth but it looks like the Bears will have real trouble staying out of the second division this coming season.

Palatine has good potential material. Their team played Saturday at Barrington without a regular starter from 1956. This is a building year for Coach Charley Feutz. Palatine lost 5, won 1 and had 2 ties last year with a veteran team and should do as well or better but seems destined to finish in the second division. The Pirates are a willing, hard working group which will be very tough by mid October. By that time they may, however, lose too many games to have a chance for a spot higher than fifth. Palatine's year will be 1957 as seven of Saturday's starting 11 were juniors and the Pirates have a pair of huge soph tackles who are counted on to get the experience this year to be standouts in the following seasons. Palatine will play more interesting and consistent ball than last year but are not quite ready to meet the best in the conference.

★ ★ ★

AFTER WATCHING Glenbrook play a veteran Zion-Benton team Friday night we again pick the Spartans as the number 1 club in the league and will go out on a limb and predict another undefeated season for the Spartans increasing their winning streak to 26 straight. Real good tackles in Wayne Graham and John Zobus, speedy halfbacks in Gordon Lind and Tom Brown, and a coming conference star in Rinella at fullback, the Spartans are well out in front.

Last year they were about four touchdowns the best. This year we will cut that in half and say they are 2 TD better than any of the others.

Challenging Glenbrook for the title and even matched as contenders and second place finishers are the Antioch Sequoits coached by Paul Kessenuck and the Wauconda Bulldogs tutored by Bill Friberg. Both have experienced backfield men. Wauconda has a potential all league quarterback in Bill Weinberg and a heavy experienced line. Antioch has three good fast backs in Christensen, Barnstable, and Deppe and fine regular ends in Parker and Capt. Huml. Their schedule calling for Glenbrook in the opener is a tough break but if the Spartans are to be upset at all it will be early, as they also are short on experience.

★ ★ ★

GRAYSLAKE, touted as one of the best, with the most lettermen available, dropped a 2-0 decision to a supposedly weak Warren squad Saturday. On this basis we figure the Grayslake team for fourth place. Pat Rooney has a big squad of boys with experience but few standouts. Like others the question is how soon his team really jells and is ready to meet the best.

We think Fenton, Ela-Vernon and Palatine will battle it out for fifth, sixth, and seventh places with little to choose among them. If Fenton can beat Palatine a week hence they should be the fifth place club as they figure to take Grant this week.

Palatine is handicapped by lack of varsity experience with no players having been more than third string last season. Anything that Palatine wins in the first three games will be just a season bonus and indication of the Pirates coming faster than expected. Fenton should take fifth and Ela and Palatine tie for sixth. Grant looks like a tailender again. Last year the Bulldog team had no wins five losses, and three ties.

On the whole the conference is the most evenly matched in many years. Glenbrook will not be the standout of last year. A number of weaker teams are much improved. We think Glenbrook will be a pretty sure first and Grant a pretty certain last, just as we picked them correctly last year. The rest of the teams are a toss up and we think there will be many more close ball games than there were a year ago.

Travelers Off To Wisconsin For Game Sunday

Elmhurst Travelers, defending champions of the Bi-State Football League continued their winning ways by defeating the strong Aurora Clippers last Sunday at Bensenvile 27-0. This is the first time the Travelers have ever shut out Aurora in 11 games played to date.

The Travelers scored in the first quarter on a pass interception by Don Miller who ran from their 38 to the 19. Two plays later Bobby Hill went over from the 9 yard line. Grady's try for the extra point was blocked.

* * *

IN THE SECOND quarter a pass from Grady to Busch increased the Travelers' lead to 12-0. Grady's P.A.T. was good. Score 13-0.

Just before the half ended Leon McRae, the Travelers' all-league fullback, thrilled the crowd with a fine 36-yard run for another score. Grady again kicked the extra point making the score: Travelers 20, Aurora 0.

Last half found Elmhurst scoring again on a touchdown by Don Miller with Grady adding the point after, making the final score: Travelers 27, Aurora 0.

* * *

NEXT SUNDAY the Travelers will journey to Cedarburg, Wis., to engage Milwaukee in another Bi State League game. The game will be played on the Cedarburg high school field. Kickoff will be at 2 p.m. Central Standard time.

League standings:

Elmhurst	2	0	0
Racine	2	0	0
Cudahy	1	1	0
Delavan	0	1	1
Aurora	0	1	1
Milwaukee	0	2	0

Fenton Could Have Good Year In Northwest Loop

Coach Paul Henry's Bison gridsters will be hoping to get off on a right foot that wasn't used very heavily last season as they open their 1956 Northwest conference schedule Saturday night with a trip to Grant. Kick-off is scheduled for 8 p.m.

The game will be the big chance for both elevens to show that they want to do better than last season. Grant's hold on the cellar in Northwest competition came as the result of a winless campaign that included 5 losses and 2 ties. The Bisons were just 1 spot higher with a 1-5-1 record.

* * *

BOTH TEAMS had offensive records last year that showed an average of less than a touchdown per game while permitting several for each opponent, but the conference slates for '56 are clean and improvements are virtually the only things being considered.

This will be the 15th annual meeting of the teams in a series dating back to 1942 which is currently deadlocked at 6 victories apiece. The second of the 2 deadlocks on record came last year on a rain-lashed Fenton field. The score was 6-6.

Madden who is a skilled ball handling guard in basketball, was injured in the second football game of the year in 1955 and out for the season. His speed, passing, coolness under fire, and competitive spirit, are depended on to inspire a green and light Grant eleven coached by Paul Lewis. * * *

Many Win Trophies At Epsom Stables Show

September 15 and 16 Epson stables, located at Palatine and Wilke rds., held one of the largest horseshows of the year. The show was open to riders of all ages who have never competed professionally.

Most of the riders were from Arlington Heights, Mt. Prospect, Palatine, Barrington and the immediate vicinity. Many were winners of trophies and blue ribbons in other shows, while others have only been riding a few months.

Offers Car Financing With Insurance Policies

Wm. H. DePue, Palatine's oldest real estate and insurance office has established a new service—financing of both new and old cars.

Mr. DePue explains it, this way: "So often we find our insurance clients in buying a new or used car become involved in a package deal-car-financing, insurance-all-in-one at excessive rates and we lose our insurance customer and the customer may or may not have made the best possible deal.

You can't beat this—Buy your car for cash. We can arrange financing for our Insurance customers—at 5 per cent for new cars and 6 per cent for used cars, and our clients can still enjoy the service of the Fine Old Line Stock Companies that we are so proud to handle.

"You so often don't realize just how good your policy is until you have a loss. We pride ourselves in quick easy adjustments that our assureds receive." (Sp

NEEDLE in the GROOVE

by PAUL LITTLE

NEEDLE IN THE GROVE stand

Several magnificent new long-play Victor recordings by our beloved Chicago Symphony orchestra under the penetrating and communicative guidance of Dr. Fritz Reiner remind us that next month at Orchestra Hall the Orchestra will begin its 69th concert season. From the prospectus we have seen, we predict it will be one of the most rewarding and exciting seasons in Chicago's history, and we urge all music lovers to attend these Thursday evening-Friday afternoon concerts through April.

If Dr. Reiner has elevated this great ensemble to rank as one of the world's five finest major symphony orchestras, it is in part due to the loyal, affectionate and music loving audiences whose enjoyment of great music acts as inspiration to these gifted musicians. And we might add that financial contributions will aid the Orchestral Association to great growth and the ability to program wide-scoped musical events; such contributions are tax-free and there is no worthier cause.

* * *

ONE ALBUM we just cited is a magnetic. illuminating interpretation of the Beethoven Seventh Symphony in A Major. This beautiful score called the apotheosis of the dance, contains some of the most intimately personal and candid music Beethoven wrote. We consider Dr. Reiner's reading the very finest to be found on discs. He has delineated the lyric and the dramatic elements, and the listener is held spellbound by the conviction, rhythm and power of this music. Sonic reproduction is stunningly crisp and clean.

The collaboration of the renowned pianist Artur Rubinstein with Dr. Reiner and the orchestra last winter made musical history. Happily, Victor has preserved it in a two-disc recording called "The Concert" (LM-6039). One disc is devoted to the beautiful and poetic preformances by Rubinstein, with Alfred Wallenstein conducting the RCA-Victor Orchestra,of the romantic Grieg A Minor and the sparklingly virtuoso E Flat Major Concerto by Franz Liszt. The other offers Rubinstein's memorably probing and youthfully heroic reading of the Rachmaninoff 'second Piano Concerto in C Minor and the same composer's glitteringly sardonic and sumptuously melodious "Rhapsody on a Paganini Theme." In both these scores, Dr. Reiner's marvellously ment with the orchestra stands out as a proof of consummate musicianship and the most eloquent of expression. This album is a tressure, and Victor's engineers have provided it with superb sound.

* * *

FROM COLUMBIA, one of the finest 12-inch lps of the year is Zino Francescatti's warmly ardent and never oversentimentalized violin solo performance in the lofty Brahms Violin Concerto in D Major, in which the Philadelphia Orchestra under Eugene Ormandy affords radiant symphonic accompaniment to make the overall achievement one of the finest and most inspired performances of this masterpiece to be found on discs. Sound is exemplary, emphasizing every nuance of the solo instrument but without overemphasis. A gem!

Our jazz recommendation of the week is from Norm Gran' JATP studios on the Norgran label (N-1061), starring that great alto sax artist Johnny Hodges in "The Blues." Hodges won fame with the immortal Duke Ellington, and his style has always fortunately conveyed that suavity and elegance of tone which the Duke influenced. Here we are appreciatively aware of this when he solos in "Indiana," "Rosanna" and the beautifully haunting tune his talented wife Edith Cue Hodges contributed for this disc, "Johnny's Blues." He is also a composer of no small gifts, as is evidenced by the jaunty "Jappa," the gracefully paced "Burgundy Walk" and a very sultry but always basic "Latino." One of the best jazz platters of 1956. (G

Shipstad's And Johnson 'Ice Follies' To Open At Stadium Oct. 16

Ice Follies, the Shipstad's and Johnson extravaganza, will open its 1956 engagement in Chicago Stadium Oct. 16, it was announced by Arthur Wirtz, president of Chicago Stadium.

Among the stars of this year's show are Mr. Frick, Richard Dwyer, Andra McLaughlin, Frances Dorsey, Florence Rae, Walter & Irene, The Three Scarecrows, Kermond Brothers, Janet Champion, Carol Caverly, Ginger Clayton, Patty Hall, the Four Sad Sacks, Ole Ericsen and Dick Mershon, Jim Waldo, Gordon Crossland, The Henry's, Bill and Billy Jr., Colin and Molly Beatty, and others.

The production numbers present an interesting geography lesson, which takes fans from New Orleans in "Picturesque New Orleans," to a "Return from the Moon." Also Snowflake Fantasy, Rhythm of the City, and Date for Dancing are among the big productions. (Bill

Hobo Summer In Europe

Touring Coed Ends Her Hobo Summer In Europe On Cruise

by NANCY EMIG

Boarding the train at 11 p.m. in Paris for Rotterdam was the saddest experience I had all summer, but the thought of getting back to the United States and seeing my family again was the one encouraging note.

Mary Anne and I stocked up on sandwiches and wine for the long ride as we would be sitting up on the train all night, reaching Rotterdam about 9 the next morning.

As I stood by the window and watched Paris slip into the night, I felt as if I were losing an old friend and yet the memories of its beauty and warmth would never be forgotten.

* * *

WE WERE IN a second class compartment with 6 other students and about 2 a.m., attempted to sleep.

This was almost an impossibility because conductors kept coming in all night to check our tickets and passports. Also, the excitement of heading for Rotterdam, the ship, New York, and home was just too much for us.

As the sky lightened and the sun began to come up, we pulled into Brussels for a 10-minute stop. Bing, a fellow traveler, and I dashed off and ran down into the station where we got hot coffee and some Belgium pastry.

BY 9 WE WERE off the train with all our luggage and in a taxi headed for the dock and the S. S. Zuiderkruis.

We checked our bags at the ship and walked back into the town where I purchased some delicious Dutch cheeses for the family.

We had to be back on the ship by noon, although we weren't sailing until 4.

This gave us a chance to get settled and see our old friends.

By sailing time, everyone was on deck to see us pull out. Hundreds of people were standing on the deck waving, including our wonderful bus driver, Heinrich, student guides from all over Europe, and many of the people we had met during our travels.

WE PULLED out amidst a shower of gayly colored streamers, the music from an organ grinder, and shouted goodbyes.

We felt very strange at first knowing we would probably never see our new friends and the many wonderful people we had met although many of us vowed we would return. After a few hours we felt as if we had never left the ship and the summer was only a dream.

The next morning we passed the coast of England and our last sight of land for 8 more days.

The weather was beautiful, warm and sunny the whole trip, except for one stormy day when most of the kids took to their cabins. After that, we were on the Sports deck constantly acquiring a tan and just relaxing.

TEA AND COOKIES were served every afternoon at 4. The meals were again absolutely fantastic and doubly appreciated after a hungry summer. You could have anything that suited your fancy and as much of it as you wanted.

Luckily the anniversary of Princess Wilhelmenia fell on a day at sea, so naturally the Dutch had to celebrate it with an extra special dinner complete with fancy menus. The Captain ate at our sitting and after he made a toast to the Princess we all gave 3 cheers.

The calm and quiet of the ship was broken suddenly 2 mornings before we were to reach New York by the urgent distress call of another ship bound for Rotterdam.

The captain announced over the loudspeaker that there had been an explosion on the Morovian freighter "the Linda" and we were turning around to help them.

This news brought everyone up on deck. It took almost 3 hours to reach the Linda and as soon as we did our ship's doctor was lowered away in one of the life boats and went over.

WE LATER found out that one of their crew had lit a cigarette at the open door of a hold which was filled with coal. The explosion hurled him out of the boat, but 2 of the crew managed to get him back aboard. The doctor took him and 2 other men back to our ship so they could have immediate attention and also reach land sooner. The one man was very seriously burned and in bad condition, but we managed to get them all to New York without any complications.

The weather continued good and the last night out we decided to stay up for the first sight of land. About 2 a.m. we saw the first lights off Nantucket, then Long Island, and New York with the Statue in the distance. Our first view of the United States after almost 3 months abroad. This was really a thrilling experience and one I'll never forget.

We were too excited to sleep so brought blankets and pillows up on deck and camped out under the stars. We were a couple of hours ahead of schedule so we laid anchor and waited in the harbor until 8 a.m. when there was dock space available.

By 11 we were through customs and waiting in front of the Hoboken Pier to be met by parents, relatives, and friends. Mr. De Nooyer met me about 1 and we were off for Passaic, N. J., where I would stay for 2 days before leaving for Arlington Heights and home.

County Zone Hassle Vital To All Incorporated Areas

It's a long, involved story.

But the outcome will affect all who live in unincorporated areas subject to Cook county zoning law.

Last March, Chicagoan Morton Fink skirted the county's zoning board of appeals and went straight to Circuit court judge Harry M. Fisher with a rezoning problem.

Fink wanted about 50 acres on Milwaukee ave. between Dempster and Golf in Maine township rezoned from farm to business status so that he could build a $500,000 drive-in movie handling 1,800 cars.

Fisher said okay.

Since then thousands of residents have sent up a howl of protest, individuals and community organizations have filed a length petition to intervene, and Cook county's board of commissioners has had another long, critical look at the shaky zoning structure.

* * *

MOST RECENT action in the Fink case came September 5 when 200 persons packed a county board meeting demanding that commissioners do something to stop construction of the drive-in theater.

Their attorney, Bernard Kaplan, asked the commissioners to rezone the land to residential status. Commissioners voted unanimously to direct the county zoning board of appeals to hold hearings on rezoning. Final action will take several months.

* * *

MEANWHILE, a petition to intervene with Fisher's judgement in the case is scheduled to come up in Circuit court September 14. Fisher will again be on the bench.

The petition, filed by Kaplan representing the East Maine Township Community association, St. Mathews Evangelical Lutheran church and a host of nearby residents, seeks to reopen the Fink rezoning case so that property owners may state their views before the court.

Kaplan has alleged that property owners didn't know of Fisher's March decision until the middle of June.

* * *

IN HIS MARCH verdict, Fisher held that farm zoning on the tract was arbitrary and confiscatory in that it took Fink's property for public use without compensation. He held that a drive-in wouldn't adversely affect the public health, safety, comforts, morals and general welfare of the county.

Neighboring property owners and institutions don't agree.

Kaplan contends in the intervening petition that homeowners and builders were not notified of the suit proceeding, and that not a single witness testified at the hearing on behalf of the county, which was named as the defendant.

If Fisher hands down a decision on September 14 that is unfavorable to the petitioners, Kaplan will appeal to higher courts. The case may go as far as the Illinois Supreme court.

The controversy has stirred up speculation that something must be done to strengthen county zoning laws.

Fink was able to ignore the county zoning board and go directly to the courts under an opinion that the zoning board, being an administrative body without hard and fast rules concerning rezoning, is constitutionally unable to rezone small portions of land upon request. Such discriminatory powers may only be granted judicial bodies, supporters point out.

The county commissioners are working on the zoning setup. A special committee has been formed to study the problem and prepare recommendations to the next session of the state legislature where strict rules of conduct may be laid down for county zoning boards.

Family Service Agency Can Avert Future Social Ills

by NANCY ROBINSON

While many families may weather a stormy period of personal difficulties without seeking outside aid, in general it can be said that proper preventive care can avert many major threats to a family's welfare.

When first signs of trouble are treated promptly, the damage is minimized, and the structure maintained, and the chances for healthy and satisfactory living for each member are better.

* * *

A RECENT SURVEY in a city of 350,000 shows that 40 per cent of all the families make some use each month of the services of the 108 public and private agencies.

Yet a mere 6 per cent of the families suffer from such a compounding of serious problems that they are using well over one-half of the services of the health, adjustment, and public assistance agencies.

These 6,500 families receiving help so late in the day show a total of 26,000 serious problems of ill health (physical and emotional), about four major problems per family.

The lesson is clear; if this high cost of human suffering, this excessive burden on the community, is to be reduced, family problems must be spotted early and given the best possible help.

When the pressure of personal problems becomes great, people need help to find the way. When there seems no way to relieve the stress or solve the problems over a long period, troubled individuals tend to head for nearest exits.

This exit for many may lead to alcoholism, drug addiction, divorce, juvenile delinquency, suicide, or tragedy of some type.

* * *

FAMILY LIFE must be strong enough to enable individual members to withstand the burdens of tense times. They must be sufficiently free of major worries to succeed in daily living. Investigation after World War II showed that a majority of the men who broke down under stress had been weakened in earlier years by unsolved worries and unstable family life.

The various communities organizing a Family Service agency can go a long way in helping their people with the one thing they have in common — the need for appropriate help, and establishing some basic service where people can go when trouble begins.

This community is organizing such an agency, and at the present time have had a number of calls for help to be given. It is asking for help to complete the organization so that it can take care of its own people and not have to refer them to an outside agency.

If any one reading this article is willing to spare a few hours a month to help the staff of counselors, contact Mrs. B. H. Robinson, CI 3-8494 for further information.

CHRISTIAN SCIENCE CHURCHES

How spiritual understanding of the real nature of man and the universe brings harmony in human experience will be brought out at Christian Science services this Sunday, September 23.

The Lesson-Sermon entitled "Reality" will include the following selection from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (335:27-29): "Reality is spiritual, harmonious, immutable, immortal, divine, eternal. Nothing unspiritual can be real, harmonious, or eternal."

Among the passages to be read from the King James Version of the Bible are the following (Psalms 33:1, 4, 5): "Rejoice in the Lord, O ye righteous: for praise is comely for the upright . . . For the word of the Lord is right; and all his works are done in truth. He loveth righteousness and judgment: the earth is full of the goodness of the Lord."

Good For 200 Years

Architects and construction engineers estimate that the White House, since its reconstruction, will stand for 200 years without major repairs.

New Social Security Law Protects Remarried Widows

by JULIUS BERMAN
Northwest District Manager Social Security Administration

Some years ago the people who are concerned mainly with statistics came up with the astounding discovery that women held considerably more than half the wealth in the Nation.

This discovery, I should qualify, was astounding only to the people mainly concerned with statistics.

It certainly wasn't news to those of us mainly concerned with women.

* * *

I HAVE BEEN fortunate enough to have had the opportunity to observe women at all ages and stages at rather close range, being blessed with a household currently bulging with charming daughters and a wonderful mother-in-law.

To my male mind, every one of them is illogical about money; but they always have more of it socked away, proportionately, than I.

We like to inflate our male egos — which so sorely need puffing in what really is a woman's world — by wry, snide comments about their buying habits and their petty financial transactions.

FACT IS, they can make a dollar go further, and still have more left out of it, than most men.

And given half an opportunity, they can get their hands on more money and keep more of it.

The way they do it may not seem to make a whole lot of sense, but they get results.

One secret of their success is that they rarely take long chances with the buck (and that goes for bucks of all kinds).

My 6-year-old, for example, who makes a career of professing her love for me every 20 minutes, nevertheless asks embarrassing questions about interest and collateral when in play I try to find out if she'll part with a small fraction of the loot in her 3 piggybanks.

THIS RELUCTANCE to risk is as characteristic at 60 as it is at 6.

In the past 15 years, many a widow has turned down a proposal of marriage solely because remarriage would mean forfeiture of her benefit rights.

Until the Social Security Act was changed this year, a widow's entitlement to benefits ended if and when she remarried. This made good social logic, of course. Once she remarried she was no longer a widow. And how can you pay widow's benefits to a person who is not a widow?

But the ladies didn't buy that kind of logic. They were looking ahead.

The Social Security Act also said (and still does) that a widow is not a widow unless she was married to the deceased for at least a year, unless she is the mother of his child

The ladies reasoned, correctly, that if they should remarry and if the second husband should die within the first year of marriage, they would have no claim for benefits whatsoever. You'd be surprised how many times cupid fell on his face because of this consideration.

* * *

THE CHERUB'S nose need no longer be bruised for this reason.

Beginning with November, the widowed ladies may remarry without receiving a medical panel's guarantee that the old boy with young ideas will hold up for at least 365 days.

The law has been changed to take the financial risk out of a widow's remarriage.

it now says that if the second husband dies before a year of marriage, the widow may revert to her prior status and draw benefits on her first husband's account.

* * *

THIS PROVISION should satisfy everyone.

It certainly makes me very happy, because never again will I have to try to explain, to a remarried widow, why she isn't her first husband's widow any more. (B10

DESIGN FOR LIVING

Building - Remodeling - Improving

Don't Hide Your House, Enhance It

Everyone wants his home to be the most beautiful on the block. Well, you don't have to spend a great deal of time or money on this kind of a project. You can do it with good landscaping plans, according tc the gardening council.

Once you have a good, full lawn to carpet your grounds, the problem is what kind, how many and where to plant shrubs and trees to get a balanced and well-proportioned landscape. To do this, you should know the over-all length, width, height and amount of exposed foundation wall of your home.

*

FOR INSTANCE, the one-story ranch-type house built low to the ground with unexposed foundation wall, looks best with informal low-growing type shrubs planted about two feet away from the house. Among such plants is the Gold Drop Potentilla, with its small yellow flowers. The Sun Gold Hypericum has a rather large yellow flower with a great mass of stamens in its center, and looks very much like a yellow pin cushion.

For added color, the Blue Most Caryoperis, a dwarf plant has a deep blue flower. You might want to use the low-growing floribundat rose. You can count on lots of colorful blossoms from all of these plants from spring to late fall.

* *

THE LOW-GROWING broad-leafed evergreen shrubs give an informal, natural soft effect. They have green leaves in winter and flowers in summer. The Mahonia or Oregon holly grape, the Euonymous shrub are perfect for both the base of your home, and the informal border planting.

The medium sized French hybrid lilac bush looks its best at the corner of the ranch-type home, with two or three dwarf shrubs planted around it.

With the accent on informal living, the back yard of the ranch-type home should be planted in natural groupings of shrubs.

* * *

IF YOU WANT to have greater privacy, you might plant taller shrubs such as old fashioned purple lilac, Forsythia, Weigela or mock-oranges — these grow six to eight feet high, and have a variety of color and fragrances that delight the senses from early spring to frost. Of course, all of the low-growing shrubs will also look fine in the backyard.

If you want shade, the companies suggest planting a large-growing shade tree such as maple or oak about 15 or 20 feet from the corner of the house. The flowering type tree such as the flowering crab apple or mountain ash will grow from 15 to 20 feet high and is most suitable for the one-story home.

* * *

WHERE emphasis on one-story landscaping is low-growing, airy and informal planting, the thing to remember about the two-story home is that it will require proportionately taller and larger plants, with great masses of plants to screen the visible foundation wall. Taller plants like the ones already mentioned are used to best advantage at the base of the two-story house.

As planting comes closer to the door of the house, shrubs should become medium-sized. Corner planting should consist of three taller shrubs with six or seven medium sized shrubs around them. The back yard should be landscaped with medium and taller sized shrubs, the taller ones to be used as a border. (DL

Fourth R Aids Three Other R's

The Three R's in Illinois will get a hefty boost from another R — railroading — when the Chicago and North Western Railway company pays its 1955 taxes on its property in 24 counties in the state.

Clyde J. Fitzpatrick, president of the railway company, said almost 60 per cent of the $2,624,219.71 constituting the railway's 1955 taxes on its operating property in Illinois is earmarked for schools.

* * *

SCHOOL taxes total $1,541,502.01, Fitzpatrick said.

City and village taxes are $455,380.51; county taxes, $216,866; sanitary district taxes, $119,706.60; park district taxes, $106,565.90; township road and bridge taxes and road and bridge bond taxes, $93,644.04; township taxes, $45,999.39; forest preserve taxes, $17,283.46; fire protection taxes, $14,764.54; mosquito abatement district taxes, $1,915.48 and township library, airport, hospital and cemetery taxes, $10,591.78.

Although the railway operates no aircraft, its airport taxes in Illinois for 1955 total $3,769.66.

'Birth' Tree Set To Honor Baby Makes Ideal Pet

"Birth" trees can be special pets that grow up with children.

An old world practice finding more and more favor in the U. S. is the planting of a tree when Junior or Sis is born. Davey tree experts report they sometimes get requests from adults to move their "birth" trees to new locales when they take up new residence.

Tree men are happy about the natal tree practice because children take an interest in arboreal pets that belong to them. This is a knowledge that stands them in good stead later when they become home owners themselves.

If you are going to plant a tree for a newcomer in your family, you can look forward to having him tend the tree when he's old enough. This whets his interest in things horticultural.

He'll be delighted when he can read to find the tree bears a tag identifying the tree and recording the date of his birth and the date of the tree planting.

"Birth" trees are not planted for immediate development. So better types of trees known for their beauty upon maturity can be selected. These include oaks, hard maples, honeylocusts, beeches, the American sweetgum, the black tupelo, and many other slower growing but finer trees.

Name tags are a good idea for all trees around the home. They help enhance Junior's tree lore.

Better Buy Now; Price Of Homes, Land Going Up

Rising prices for new houses and tight mortgage money have dampened many a hopeful home buyer's dream. But if you're waiting for a cheaper house, you'll be disappointed.

Rising land, labor and building materials costs have forced builders to raise prices.

As a result, the average home buyer now pays about $1,500 more for a new house than hewould have paid last year. You do get more for your money though, since houses are larger and better equipped.

• • •

YOU'LL PAY more, too, to finance a house.

Mortgage money has rarely been as hard to find as it has in the past 6 months. And, when money begins to get scarce, interest rates rise.

The total interest paid on a mortgage may run into several thousand dollars, and it must be added to the contract price of a house.

There is no indication that prices will decline. This same spiralling of new-house costs will continue. No improvement in the present tight-money situation is predicted in the foreseeable future either.

• • •

SO IF YOU want a house, and are fixed to swing a deal and can get the money, you had better go ahead.

When you buy, keep these facts in mind: Many builders are in a forced-to-sell spot and are eager to deal. It may pay to choose an older home, even if you have to fix it up. Today's best buys, everything considered, are houses built before 1940. Mortgage-money costs, though high, still vary greatly, so shop around.

Remember that shaving ¼ or ½ of 1 per cent off the interest rate will net you hundreds of dollars over the life of your mortgage.

Senators, Writer, Cabinet Officer At Chamber Session

An imposing array of 24 top-flight government and business leaders will be on hand October 4 and 5, when Illinois businessmen congregate in Chicago for the 38th Annual Meeting of the Illinois state chamber of commerce.

Heading the list are such nationally prominent figures as Ezra Taft Benson, Victor Riesel and Senators Symington, Bricker, Dirksen and McClellan.

Sessions will be held at the Sheraton Hotel with the exception of the Annual Banquet, Friday evening, October 5, which will be at the Palmer House.

"EVERY EFFORT has been made to make the 1956 affair one of the most interesting and informative ever held," said Louis Ratzesberger, Jr., president of the statewide business organization, who announced details of the meeting.

"The continued high calibre of the chamber's annual meeting has earned it recognition as being the leading business meeting of its kind in the midwest. We are confident that the outstanding program planned for the 1956 conclave will more than live up to this reputation."

Climax of the meeting will be the annual banquet Friday night when the spotlight will focus on a quartet of eminent Washington lawmakers including Republican Senators Everett McKinley Dirksen of Illinois and John W. Bricker of Ohio and Democratic Senators John McClellan of Arkansas and Stuart Symington of Missouri.

* * *

WITH ELECTION day fevers reaching a zenith, the two teams of senators — all four are active party spokesmen—undoubtedly will stoke the political furnace with some high octane appeals for votes.

General theme of the discussion will be "What May We Expect After Nov. 6?"

At a luncheon meeting Thursday, some of the loaded and little-known aspects of the controversial farm issue will be revealed by the target of the criticism—Secretary of Agriculture Ezra Taft Benson.

Friday's luncheon speaker is the nationally famous syndicated labor columnist Victor Riesel. This dynamic writer's vitriolic blasts at labor racketeers resulted in a cowardly acid attack that caused Riesel's total blindness. He will expose some of the shocking truths about the communists and gangsters who are sabotaging the legitimate labor movement in this country. (BB

Insurance Firm Launches National Safety Crusade

A comprehensive accident prevention program aimed at reducing the terrible toll caused by motor mishaps was announced this week by president of the Allstate Insurance company.

The Allstate Safety Crusade is designed as a continuing effort to reduce accidents. America's traffic fatalities will total 43,000 this year, unless a dramatic improvement occurs, the company asserted.

PRIMARY approach will be through Allstate's nearly 4,000,000 policyholders, who will be given an opportunity to join the Crusade by pledging to do all they can as individuals to be careful, courteous drivers and to realize that it's smart to drive safely.

"The problem is so acute that all segments of American life and American business must unite to do everything possible to halt the misery and suffering, not to mention the expense, caused by accidents," the company said. (BB

Major Airlines Outrank Railroads In Revenues

Based on passenger revenues, the leading airlines of the country once more outrank the leading railroads The airlines rank as 4 out of the first 5 and 6 out of the first 10 passenger carriers in 1955. American, United, Eastern and TWA, in that order, lead the Pennsylvania Railroad which was the first place railroad. One of the significant factors in the comparison reveals that in the percentage of changes all of the airlines in the top 20 carriers showed gains while some of the railroads involved showed revenue decreases up to 5.3 per cent.

Certainly an indication of the changing times as air travel increases its share of the common carrier market. (G

County Zoning Could Meet Problem Of Rural Growth

County zoning ordinances offer a practical solution to many of the problems of rapid, helter-skelter growth around population centers in Illinois.

The expansion of industrial and commercial businesses into rural areas is a vital and necessary part of a healthy economy.

Unfortuntely, this movement in a number of Illinois counties has taken place without adequate planning.

IN SOME, a disorderly, haphazard land-use pattern has developed.

The result has been decreased property values, people disturbed in the enjoyment of their property, safety hazards, and a marred scenic beauty in some communities.

Unincorporated areas, formerly devoted to farms and rural residences, have become dotted with factories, motels, restaurants, saloons, and other businesses. Junk yards, city dumps, trailer camps and used automobile lots are scattered in certain areas.

Farms and rural businesses are not exempt from adding to the burden of helter-skelter growth.

The advent of the automobile society in America created the need for wider, better roads. Farmsteads and local businesses jammed up to narrow roads makes highway improvement difficult.

* * *

ZONING ordinances, already adopted in 13 counties, offer a practical solution to many of these problems. Typical of the county ordinances is that adopted by Macon County in 1943.

The ordinance divides Macon county into 9 types of districts — agricultural, country home, "A", "B," and "C" residential, local business, commercial, light industrial and heavy industrial.

The land use permitted in each district is spelled out in the law, as well as the maximum building heights and minimum lot areas.

The county superintendent of highways is the enforcing officer, and appropriate penalties are set. Appeals from zoning rulings can be taken before the zoning board of appeals for a final decision.

THE ORDINANCE helps farmers by preventing slum districts or objectionable industries from springing up adjacent to farms. Zoning permits orderly growth of the county without any bad situations developing.

Other Macon county residents report that subdivisions are no longer boxed-in with no provision for access roads, as they once were.

Proper setbacks provide for future road improvement, industries are restricted to specific sites, and dumping areas can no longer be located near housing.

Signboards located outside of commercially-zoned areas must be removed. (Fm

Hessian Fly Now Threatens Illinois

The results of the annual survey conducted by entomologists of the Illinois Natural History Survey and the University of Illinois college of agriculture indicate that the Hessian fly infestation is much greater throughout the wheat growing sections of Illinois than it has been for several years.

In 1955 the average number of puparia per 100 tillers in the 14 counties surveyed was 7.1. In 1956 the average number of puparia per 100 tillers in the same 14 counties was 13.9.

* * *

GROWERS should certainly strive to prevent the Hessian fly population from increasing by observing the suggested seeding dates.

In view of the indicated increase, it is more important than ever to follow the recommendations as a means of escaping Hessian fly damage next year.

Although wheat sown before the suggested seeding dates might escape serious damage this fall, early fall seeding will likely result in a serious buildup in population, and a spring brood in 1957 may cause serious losses to all fields regardless of seeding dates.

SINCE THE seeding dates recommended for Hessian fly control are identical with the seeding dates which have given maximum wheat yields over a period of many years, there seems to be no logical reason why wheat growers should not conscientiously follow the recommendations.

Also it would be wise to destroy volunteer wheat wherever possible to aid in controlling this pest. The recommended seeding date for Cook county is September 19-21.

DOWN ON THE FARM

with Your Farm Adviser

CARL F. MEES

The annual fall outlook meeting will be held at the Farm Bureau building, Arlington Heights, Thursday, Sept. 27 beginning at 8 p.m.

What is the economic outlook for the next 6 months to 1 year?

What is the outlook for hogs, beef, cattle, dairy sheep and poultry?

These and similar questions will be answered at the meeting.

* * *

R. M. Finley, agricultureal economics department, University of Illinois, will be present to discuss the material on the over-all outlook.

Representatives from marketing agencies will discuss the beef cattle and hog situation. Anyone interested in the meeting may attend.

* * *

DID YOU ever see a squash that weighed 117 pounds? No!

I hadn't either until a few days ago when I visited Walter Sass Jr., on his farm in Elk Grove township.

This squash, incidentally, looks like a pumpkin, but isn't. Walter and his father have been working on the breeding of the squash for a long time. They are used for pies. The true pumpkin makes a watery pie. The true squash a dry pie and this one is just right says Walter.

I'm going to pass my judgment on the quality of the pie as soon as my wife finds time to cook one. I did not bring the 117 pound one along. My family isn't large enough for one that size. There were many in the field that weighed 50 to 75 pounds.

* * *

SPEAKING of pumpkins this has been a good year for vine crops. You will be able to get just the pumpkins you want for Halloween. They will be nice size too this year.

If you have tomatoes you will want to watch them for corn earworm damage. When the supply of green corn silk is limited these pests go to tomato fields. That time is now. Good insurance would be the application of an insecticide. Use 4 pounds of TDE wettable powder or 2 pounds of 50 per cent DDT wettable powder in 100 gallons of water. Do not harvest the tomatoes until at least 5 days after application of insecticide.

This is a beautiful season of the year. The golden rod is yellow; the corn is turning brown; the trees in the apple orchard with fruit are bending down; the soybean fields are yellow. Why don't you take a drive to the country and see the beautiful sights.

The wheat seeding date is September 19-21. An application of phosphate fertilizer drilled with your wheat will pay you big dividends. (Fm

Illinois Slated For Giant Corn And Soybean Harvests

A frost scare around September 7 and 8 caused considerable concern about late planted corn, but actual damage was slight.

Light frost was reported in many areas with temperatures down to 27 degrees in North Platte, Neb. Immediately afterward, temperatures bounced back to high 80's and low 90's which aided rapid drying of both corn and beans.

ILLINOIS, the favored state in both corn and bean production in 1956, expects to have the highest yields and largest production ever in both of these crops.

Abundant July and August rainfall with normal temperatures turned the trick.

Even 1948's bumper corn crop is expected to be exceeded.

Iowa, the second state in corn production this year, has a spotted crop, varying from generally good in the east to poor in the west. But in many areas, yields may vary by 50 bushels within a few miles. Irregularly scattered showers and unusually severe hailstorms produced this effect. Minnesota will rank third in corn production this year and second in soybeans.

Minnesota has rapidly come to the fore as a corn producer since the introduction of hybrid corn 20 years ago. This year its corn production will be about half that of Illinois, the top ranking state.

International Dairy Show In Chicago October 6-13

The first entries for the 4th annual International Dairy Show reflect the international character of this relative newcomer in the dairy exposition field.

The management reports exhibition herds of Jerseys and Milking Shorthorns from Maryland, New Jersey, and Massachusetts among the first to come in, and other early listings include herds of purebred dairy animals from Canada, the West coast, and Georgia.

The show will be held October 6 to 13 in Chicago's International Amphitheatre.

* * *

THE CONTINENT'S finest farm animals of the 6 breeds that supply the nation's milk will compete for $40,000 in cash premiums and for scores of valuable sterling silver trophies.

The Chicago show has been designated by the American Jersey Cattle club as the national show of the year of that breed, and auction sales of prize-winning Guernseys and Holsteins will add interest to these two breed competitions.

The International Dairy show will also include many exhibits of dairy farm equipment and dairy products, put on by manufacturers, distributors, and processors of dairy foods and dairy equipment.

Be Safe, Know Farm Hazards

The first step in farm safety is to be able to recognize hazards.

The next step is to do something about removing those you see, says L. L. Hogsett, extension safety specialist at the University of Illinois college of agriculture.

Rundown condition of equipment and buildings is the most common cause of farm safety hazards. Help to prevent accidents by keeping both buildings and equipment in good repair.

RUBBISH in basement or attic, ashes kept in wood or paper containers, clothes dried too near a stove, a tractor stored in a hay barn, gasoline in a glass jug — these are all danger spots where a serious and expensive fire might start.

Some machines and tools, like axes, circular saws, disc, harrows, mowers, cornpickers and tractors, are hazardous either because of their design or because of the way in which they are used.

And a good way to cause an accident is to start a fire with kerosene, refuel your tractor while it is hot, adjust or clean machines without stopping the power unit or let children ride on machines.

* * *

ANOTHER hazard for animals as well as for people is equipment left scattered around the farm.

For safety, provide a safe place for everything, and then keep everything in its place. (Fm

Stengel Makes Strong Bid For Illinois Farm Support

It's official.

Star of the 1956 Illinois political revue will be the farmer.

He was shoved feet first into the election spotlight this week, and he's likely to stay there until November 6.

Addressing Illinois farmers, Richard Stengel, who is opposing incumbent Everett Dirksen for Illinois' senate seat, made a strong bid in his vigorous campaign drive.

Declaring that Republican policy "plainly calls for junking the whole farm storage program," Stengel revealed his farm policy in what he termed "a program to fight for."

* * *

AS U. S. SENATOR, he told farmers he would seek to:

—maintain adequate grain storage facilities and oppose the government's closing out this program;

—expand the soil bank program, eliminate current discriminations against drought areas, and provide an adequate, long-range -system of payments for land withdrawn from production for market;

* * *

—**SUPPORT FARM** prices firmly at 90 per cent of parity, pending establishment of expanded export programs, expanded school lunch, hospital, and relief programs with food surpluses, and the balancing of production with overall demands for food and fiber;

—provide a limitation of benefits which could be drawn by any single farm unit; and

—provide a program of lower interest rates for farm loans. (Fm

Moisture May Spoil Grain In Storage, Warns Adviser

Some grain can mold and cake during the fall and winter even though it is stored below a safe moisture level and in a weather-tight bin.

The reason is that moisture moves from various parts of the bin and collects in the surface layers, says Farm Adviser, Carl F. Mees.

DURING the fall and winter, grain near the walls and surface of the bin cools fast while grain at the center tends to stay warm. Because of this difference in temperatures, moisture slowly but steadily moves from the warmer to the cooler areas.

By spring, unless you have done something about it, moisture accumulating in the surface layers of the grain will have caused a bowl-shaped mass of mold ycakedgrain one or two feet deep at the top center of the bin Mees says.

The only way to control this moisture movement is to cool the grain by drawing cold air from outside the bin and circulating it downward through the grain.

In this way the warm moist air is pushed out directly from the bin instead of being forced to the surface, where the grain is cold and where the moisture is likely to condense.

* * *

ONE CAUTION, Mees points out, is that this is not a way to dry grain. Cooling is designed only to prevent moisture from collecting in the top layers of the grain.

For full information about this process, ask your county farm adviser for a copy of circular 764, "Cooling Stored Grain." (Fm

Mary, Mary Quite Contrary, How Do Your Habits Grow?

by MARY

Habit is a wonderful thing. Sort of horrible, too, in a fascinating way.

Some one said, and it was probably in the Bible or else Shakespeare said it, that we are all creatures of habit.

I must scurry off to look this up in Bartlett's Familiar you know whats.

* * *

BARTLETT is about to hear from me. He doesn't have it and I looked under creatures, habit, and we. I even went so far as to look under all which was long and involved and lead me far astray. Maybe I just made it up.

Well, back to habit. Housework, as every housewife well knows, takes little or no mental effort. One hardly has to ponder just how to dust, which foot to put after which when throwing clothes in the washer, or should one iron this dress before one irons that dress. It all just comes naturally.

The other day I started to think about this routine and found, to my horror, that I had been doing things in the same old way. Lo these many years I have started to clean up the living room after the night before in the northeast corner.

* * *

WHY THE northeast corner is better than the northwest corner is a moot question. Or why I don't start the cleaning in the upper righthand bedroom. Or why I decide to wash on Thursday every week instead of Monday as all good little housewives do. It is just that I have carved out of solid rock a nice lettle routine for myself and no one had better interfere or I am thrown for a loop.

And, if I am thrown for a, nothing will get done and then where will we all be? It would be interesting to find out. I start from the back of the house to clean instead of the front northeast corner. That means that the living room will be filled with old filled ashtrays, magazines and newspapers until all hours. Good for them.

IT MEANS that father will not have clean shirts on Monday. Of course, he will have clean shirts on Wednesday but will that make him truly happy on Monday? And, Monday is a very important day in our house. I hate it. Everyone hates it as it means getting back in the old grind. It is better to have clean underwear on Monday. It means more.

Sol I shall stick to the northeast corner of the living room, the washing on Thursday and the unutterable joy of clean underwear and shirts on Monday. But, someday I shall vary this routine and then, just listen to the shriek that will go up. They are just creatures of habit.

And, I forced them into it.

Suburbs Need Democrats, Too

Marguerite Stitt Church last week rode hard through northwest suburbs and sounded very much like a lady Paul Revere.

Crying a figurative "to arms to arms, the Democrats are coming," the GOP congresswoman sought to prod loose a complacent Republican organization accustomed to having everything its own way.

Partisan elections have been rather dull affairs in suburbia. There's never been much doubt as to the outcome. As a result, candidates bypassed suburbs on vote-gathering swings, ignored or glossed over issues directly affecting suburbanites, and for the most part denied voters the opportunity for free debate provided less partisan territories.

Unfortunately, the "market place of ideas" never set up shop in suburbia—and a truly intelligent and enlightened citizenship needs such a free political climate in which to develop.

It's encouraging, therefore, to see Democrats begin to make a more vigorous appeal for suburban support and Republicans to stir themselves into some conscientious fence mending.

Paddock Publications have traditionally leaned toward the Republican party. But they have also been concerned over suburban voters being "robbed" in a sense, of a democratic heritage only because the GOP frequently yawned its way through an election while Democrats shied away in a flourish of indifference.

America's 2-party system is responsible for the greatest democracy the world has ever known through the free exchange of ideas and under the stimulus of different viewpoints.

With the announcement of citizen groups for Ike and Adlai, early appearances of candidates from both parties, and surprising spirit among regular township committees, it appears that suburban politics will at long last be injected with fresh vigor.

It may compel the voter to think of issues and evaluate candidate qualifications—and cast his ballot Republican for some reason other than a suburban address.

The Presbyterian church, one of Arlington Heights' oldest institutions, will celebrate its 50th anniversary. The Jubilee will be attended by many old settlers. Bring your lunch baskets Saturday.

Since the death of Pres. Bryson, electric road matters have been rather quiet. However, this week for the forty-eleventh time a new set of men went over the route. Rumors have it that Quentin Corners and possibly Lake Zurich will be left out.

OUR LONG and oppressive drouth was broken Sept. 19 by a good all night rain. Many thanks for the timely relief.

What will Arlington Heights come to if the lawless element isn't curbed? Policeman MacNab reports that after doing his duty and notifying the saloons that it was past closing hour, while he was standing on the walk in front of Winkelmann's saloon at about midnight, Sept. 15, a gang of rowdies surrounded him and one from behind struck him a terrible blow on the side of his head, which knocked him down.

She goes via Portland so she can visit her sister, Miss Alice Janette Paddock, who is a teacher in the Jefferson high school at Portland. Daisy is the same Jolly girl as always and enjoyed every minute of her 15 weeks' visit. It is always a pleasure to her relatives and many friends to have her around and her by-yearly visits are most welcome to all.

THE COOK County Fair is assured for Palatine each year hereafter due to the success of the one held September 12-16 which was made possible through the untiring efforts of Charles E. Dean, assisted by C. H. Patten.

On Saturday at Dean's Driving Park, Palatine, there will be some exciting auto races for cash prizes. This track is becoming noted as a mecca for auto fans and this day's event is sure to attract a large crowd.

Mt. Prospect — Talk about speed and dare devils. We doubt if that bunch of chauffeurs at the creamery have their equal on the speedways, present or past. They make 120 miles in 11 hours, loading and unloading at both ends of the line 3 times and ample time for meals.

Palatine was shocked last Friday by the news of the sudden death of Paul J. Patten which was radiographed from the Steamship Tahita enroute from San Francisco to Sidney, Australia. He had felt the need for a rest after strenuous work as president of the Lake Zurich Milk Co. He was the son of Charles H. and the late Mary Robertson Patten.

WE MUST also report the "Homegoing" of one of our members, Fred Mess, born Sept. 19, 1866 in Westphalia, Germany. There are many monuments built to him in the way of beautiful well built homes in Bensenville and vicinity.

In a 48-hour rain which ended Sunday afternoon, the house holder, farmer and autoist were reminded of old time spring floods with water in the basements, fields under water and blocked roads and stalled autos.

With the greatest drouth in Illinois for August in half a century there was a record rainfall of over 4 inches. The huge sewer system at Arlington Heights with its six and seven foot mains were filled. The pressure of water was so great that large geysers were formed at the 8x12 ft. outlet.

MR. J. B. CROFOOT, president and founder of the firm of J. B. Crofoot Co., Mt. Prospect, passed away Sept. 15. Deceased, with his son, Elisha, invented, took out patents and improved the Crofoot tacker and associated machines, starting their manufacturing in Chicago about 30 years ago.

Early this week announcement was made by the state highway department of over $8,000,000 construction work. Elmhurst road as route 54 is included. The story goes that two 20 ft. slabs are going to be laid between North avenue in Elmhurst and Higgins road. At the same time perhaps some way will be found to curb the so-called "black sea" north of Bensenville that goes on a rampage every time there is excessive rainfall.

White houses are beginning to lose their lustre as Palatine's peat bog took a turn for the worse over the weekend. State public health institute was hurriedly called in for help in coping with the burning peat. Smoke has also become a serious hazard for autoists in the vicinity. Although the fire department has been able to keep the fire from spreading materially, no solution has been found for extinguishing the blaze that has crept downward many feet into the ground.

ACCORDING TO Harvey Branigar, priorities have been secured for the building of 20 new homes in Bensenville, the first of a group of 50 homes to be erected by him.

Are We Suckers?

We have been wondering a long time now if something cannot be done about a very disgusting situation on our street. Quite a few years ago we built our 'home in the country" on Jackson drive west of Schoenbeck rds.

Well, over a year and a half ago another couple bought a lot and moved a broken down relic of a house trailer on it and have just been squatting there ever since accumulating a lot of junk and making not the slightest effort to build. They had a power pole put in and that was it. The people they bought the lot from live on the adjacent one and let these squatters use their well and even their driveway!

* * *

ABOUT A YEAR ago they tried to sell out but could get no takers because of all the junk. To top it all off, a week ago they came up with a brand new $4,000 Mercury station wagon!

To the people living on this street who struggled to make their homes and yards respectable it is very discouraging that such a situation has been permitted to exist so long with no action being taken by any officials of the zoning bureau. It not only is an eyesore but has definitely depreciated the value of our homes by making the neighborhood look run-down.

WE UNDERSTOOD the laws governing this kind of squatting were very strict and yet here is someone who is apparently immune from any court action simply because they do not take out a building permit!

Are we home owners all suckers?

Disgusted Taxpayer.

Dear Mrs. Church

I was amused to read in the Arlington Heights Herald last week that Mrs. Marguerite Stitt Church praised President Eisenhower for improved social security benefits.

Dear Mrs. Church certainly has a limited capacity for memory.

HAS SHE forgotten already that President Eisenhower personally opposed social security expansion and that it passed only because Democratic Sen. Walter George and his partisan colleagues pressed it through Congress—in spite of Ike?

I do hope Mrs. Church is a bit more, shall we say, "accurate" in her future campaigning.

Just Asking

Is the Community Hospital Fund worth working for?

Speaking for myself only, but sure other members of the Hi-Pal club are asking the same question.

As our club and so many others worked very hard to put on a fashion show, which was held around May 1st and to the ones that attended and have been wondering, we turned over $275.00 of which we were so thrilled and pleased to do, after putting in some long and hard hours.

But to this day, we have not had one word of acknowledgement, and for that amount I feel some word of thanks would help, for getting help in the future, don't you?

For if you think giving a fashion show is a picnic, think again.

Haven't seen any reports in the paper as of late on how the fund is going, so was also wondering — when?? now that we know, where.

Uncle Sam Is Rather Careful About Tax Return

Chances that your tax form — one of 60,000,000 — would be picked for checking might seem low, yet the government does a surprisingly extensive job of scrutinizing.

Not all returns get the same attention although every one is checked for arithmetic. Some 40,000,000 small wage and salary earners' returns have little more on them than notations of total income, tax withheld and dependents. These are subject to only cursory examination.

* * *

BUT ABOUT 20,000,000 returns receive greater attention. If you earn between $5,000 and $50,000 or have a business that doesn't gross over $30,000, it's likely your form will be reviewed.

The probability is increased if you list unusually large medical deductions, interest payments or contributions.

And, if you request a large refund, you can be sure that your return will be audited. Even in the case of smaller refunds, increasingly greater care is being exercised in making payments.

In The Shadow Of The Steeple

Hypocrisy Is Rampant Today On 'Two Faced' Zone Boards

by WILLIAM O. McGill

(Rev. McGill is pastor of Community Presbyterian church Wheeling.)

Wherever there is a community in Illinois which has a zoning ordinance, there appears in the Preamble words to this effect:

That the elected officers "deem it necessary to the end that adequate light, pure air and safety from fire and other dangers may be secured, that the taxable value of land and buildings may be conpublic streets may be lessened or avoided, and that the public streets may be lessened or avoided, and that the public health, safety, comfort, morals, and welfare may otherwise be promoted."

* * *

AND WHENEVER a zoing board of appeals recommends the passage of an ordinance re-zoning a particular tract of land, it always includes at least the phrase, "in order to promote the public health, safety, comfort, morals, and welfare."

This, I submit, is one of the pious-sounding bits of hypocritical cant in our civic life today.

It should be clearly understood that I make this statement quite generally, having no specific act or proposal in mind. I should add that usually I have no objection to re-zoning of property.

* * *

BUT I HAVE been to a number of village board meetings and a number of meetings of the zoning board of appeals, and I have talked with people in other communities and, offhand, I can't recall any instance where the promotion of "public health, safety, morals" had anything to do with the proposal.

The welfare of a specific property owner or group of property owners is usually involved; the taxable value of land and buildings may be more than conserved—it is usually up-graded.

But this is the only clause in the preamble which receives more than passing attention.

* * *

OF COURSE, if you want to object to a proposal regarding rezoning, you can't do it just because you don't want a gas station next door to you, or a tavern, or a used-car lot, or a grocery store. You have to prove that it endangers "public health, safety, comfort, morals, and welfare," not simply yours, but the public's.

In a court of law, the burden of proof is on the state—a man is innocent until proved guilty, that is, he is innocent now and presumed to remain so until proof has been established.

Intercollegiate debate rules provide that a resolution must propose a change, and that it is the duty of the affirmative team to prove the case. It is presumed that the situation-at-present should continue unless proved otherwise.

But the zoning of property seems to work the other way.

The assumption seems to be that any change should be regarded with approval unless the neighbors object on grounds consonant with the principles of the zoning ordinance. This is sheer nonsense.

* * *

IF WE KNOW anything about morals, public or private, is is that moral rectitude requires a public conscience and a private conscience.

Mankind is not naturally moral, nor is he naturally conscious of health or safety.

This is why we have education, why society builds up traditions, why churches continue preaching.

If we know anything at all about zoning, it is probably that requests for re-zoning stem from a situation which is more profitable to the appelant than the present zoning.

He is in a position not likely to make him aware of public health, safety and morals

The improvement of one's personal welfare tends to reduce his consideration of the public welfare.

Critics Ring Death Knells

by ERICA FLOYD

If legitimate theatre has "died" in Chicago, the plucky critics of the daily press were pallbearers.

And if perhaps it is racking out some last rasping gasps, the critics are sure to be hovering over the deathbed, eagerly speeding the demise.

Why, I can't imagine, because eventually they'll wind up without jobs.

But look at that sorry lot of abrasives entrusted with the cudgel of high cultural standards for esthetic Chicago!

* * *

MISS CLAUDIA Cassady is a case in point. An unpleasant one, to be sure, but she's been dubbed Chicago's "Queen of Culture" and it's enough to send one scurrying to the GM & O for an express to St. Louis. At least Claudia's reliable; if she pans something, you know for sure it's worth seeing and probably in good taste.

Dyspeptic Sydney Harris is a clever gentleman who not long ago discovered the English Language. And he has so much fun toying with words and figures of speech that he simply hasn't any time left to discuss a play intelligently. And if he does, he's more interested in how his review will appeal to a coterie of blase sophisticates than to the bulk of his newspaper's readership.

* * *

AS FOR KINDLY Herman Kogan, he's obviously a nice chap who was yanked off the copy desk one evening and told to write a play review. And he's been doing it ever since and with about as much spirit.

Cherubic Roger Dettmer tries too hard. He's so concerned about being democratic and in tune with popular taste that he's forgotten there's such a thing as good taste.

Oh well, ave atque vale, dame theatre.

Just Around The Corner From Patty McArdle

Patty Turns TV Critic, Takes Issue With Daily News Writer

Dear Peg:

If the last two programs we've seen on television are any indication of what we may expect the fall fare to be, we televiewers may look forward to a sparkling season!

Bob and I were both impressed with James Cagney's premier performance in "Soldier from the Wars Returning" on Robert Montgomery's program. I don't think it's difficult for an actor to portray a violent emotion—such feelings as hate, anger, love, etc. are easily recognized. But, to be convincing in the role of a sergeant, whose unpleasant duty it is to accompany the body of a dead soldier from California to Red Rock, Illinois, for burial, and to project his mixed feelings of despair, aloneness, disgust and finally enlightenment at the discovery of a profound truth, requires a great deal of skill. We felt that James Cagney evidenced that skill.

* * *

IN ANSWER to Ethel Daccardo, Daily News television columnist, who criticized, "Cagney was disappointing. He seemed unsure of himself," I would say that his unsureness was one of the traits that made the sergeant a believable person.

I'm certain that's the way he would act upon arriving in a strange town and bringing to a family he'd never seen before a young son about whom he knew nothing except he'd died heroically in Korea.

Through the friendliness of the town, the family and especially the sister and through his observations of the people who grew up with the dead soldier, the sergeant developed a warm understanding of people which led him to the conclusion that the boy's death was neither useless nor an ending, but rather a beginning of immortality as he began living in the minds of those who knew him.

Miss Daccardo must have gone to the kitchen for a cup of coffee when the point of the whole play was clearly made, for she said, "this drama was not definitive. The viewer was never quite sure what he was to feel." I was sure. I felt as happy as the sergeant when he realized that in the mind and heart of each person who knew the soldier there was something special about him that would always be remembered and if all the "special" things were put together they would "be" the soldier. He concluded that in the minds of his family and friends the soldier would continue to live. I thought it was a thoughtful and touching play in which each actor gave an intelligent and sensitive performance.

* * *

THE FOLLOWING NIGHT we watched "Antigone" on the Kaiser Aluminum Hour. I could only have wished for one more thing—that we could have seen it in color. Of course, I'll watch anything that Claude Rains is in. One the the most skilled craftsman in the acting profession today, he brings a magnetism and a thorough understanding of the character to be played to any production he's in.

As Creon, king and uncle of Antigone—played by Marisa Pavan, he portrayed the cruel and unyielding tyrant who orders the body of Antigone's brother to be left in disgrace, unburied. Even though it means death for Antigone who, highly emotional and equally as unyielding, defies his orders and continues to attempt to bury her brother and death for his son who, loving Antigone, promises to die with her, he refuses to retract his order.

In its starkness the set was as dramatic as the play with only suggestions of the palace rooms and a cage-like structure for Antigone's confinement before her death. This was television viewing of rare quality!

My love,

Patty.

Schools Failing To Teach Morals

by LELAND ELLIS TRUXEL

For more than a generation, we have been told repeatedly that education is the salvation of morals.

Learned bedagogs insist that if a child is taught what is right and good through education he will be morally all right.

During the past few years there has been a vast growth in a new system of dogmas, "the power of positive thinking." If we think positively about things, we are told, we will be all right.

* * *

DURING these many years, juvenile delinquency and crime in general have been on the increase. Immodesty and lax morals have been greater than ever before.

While it is true there are more people than ever before, and thus more immorality, this is not the answer to the growth of immoral conditions; for, from a percentage standpoint, we are more immoral than ever before.

Figured on a basis of strict, fundamental morality, we have fallen terribly. What was a cardinal sin in grandfather's time is believed to be O.K. today; but immorality can not be reduced by lowering moral standards.

Education has definitely failed in rearing a moral generation, no matter what else maybe said for it. There is nothing in knowledge or education alone that can induce virtue in mankind. Merely knowing what is right and wrong is not enough.

* * *

THE MORAL standards that the vast majority of young people go by are those of their parents and churches

It may be possible to be moral without being christian; but it is impossible to be christian without being moral, and christianity builds character which enables men and women, boys and girls, to develop a will to be moral where education or moral training alone often fails.

Education has failed — greater knowledge does not make more moral men and women. But true, fundamental christianity has not failed.

It continues to produce men and women, boys and girls who have the character that enables them to live both christian and moral lives.

Hodge Scandal Shows Need For Reform: Kinser

Harry L. Kinser of Des Plaines, Democratic candidate for state representative from the 6th district, this week pointed to the need for basic legislative reforms arising out of the Orville E. Hodge scandal.

In a statement to Paddock Publications, Kinser called for immediate enactment by the Legislature of a mandatory system for auditing the expenditures and accounts of the State Auditor's office by an independent office or agency.

* * *

THE DES PLAINES attorney also stressed the responsibility of the legislature to scrutinize closely appropriation requests made by all state offices, and to make certain that expenditures of the taxpayers' money are guarded by a "watch-dog."

"The Hodge case," said Kinser, "drives home the pressing need for a Corrupt Practices Act here in Illinois."

Such a law would require all candidates for public office to reveal the names of campaign contributors and the amounts contributed and expended in the course of a campaign, according to the candidate.

Illinois is one of the few states which does not have such a law, and Kinser pledged to support its enactment in the next session of the General Assembly.

It's football time once again and fans will be attempting to keep their eyes on the players, the ball, the officials, the cheerleaders.

We've attempted to make it easier for you by combining 2 of the cheerleaders with the officials' signals. Study them. Memorize them. Then you'll be ready for the openers of the high school football season

Dorothy Anderson, Palatine high school cheerleader, is seen on this page in white shorts, attempting to help you enjoy the game. In the Bermuda shorts is Judy Petersen of Arlington high school.

Through the Oven Door by your Ceresota REPORTER

Have you ever been right in the middle of making a cake when the telephone or doorbell rings? One good way to make sure that such an interruption doesn't ruin the cake is to lay all the ingredients to the *left* of your bowl before mixing. Then, as you add ingredients, place their containers to the *right*. In case you're called away during the process, you easily can tell what's been added when you return.

• • • •

Isn't it a thrill to have the things you bake come out of the oven perfect in color and pretty as a picture? And when they are baked with Ceresota flour, you know they'll taste as good as they look.

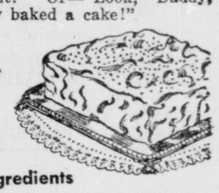
Ceresota does things for your baking that other flours can't. And for a very good reason. Ceresota gives you baked goods of fuller flavor, better texture, and better appearance because it is unbleached — the NATURALLY WHITE flour.

• • • •

Grated orange rind, when added to the dough, gives an exciting different taste to homemade doughnuts.

Ever notice how proud youngsters are of their parents' handiwork? How often have you heard, "See my new sand pile? Daddy made it!" Or—"Look, Daddy, Mommy baked a cake!"

Silver Ball Cake



Ingredients
2 cups Ceresota unbleached flour
1⅓ cups sugar
¼ cup shortening
¼ cup butter
½ teaspoon salt
3 teaspoons baking powder
1 cup milk
4 egg whites—stiffly beaten
1 teaspoon almond flavor

Directions: Cream shortening, add sugar, and continue creaming. Sift dry ingredients together and add alternately with milk and almond flavor. Fold egg whites into batter. Pour into 9" square greased and lightly floured pan. Bake in 350° oven about 30 minutes. Frost with White Butter Frosting and sprinkle silver ball decorettes over top of cake.

White Butter Frosting
Blend:
2 cups confectioners' sugar
¼ cup soft butter
Stir in—beat until smooth:
3 tablespoons cream
½ teaspoon almond flavor
